Introduction to computing and computer programming in the context of mathematical disciplines Numerical Computing with Modern Fortran Richard J. Hanson, Tim Hopkins, 2013-11-21 The Fortran language standard has undergone significant upgrades in recent years 1990 1995 2003 and 2008 Numerical Computing with Modern Fortran illustrates many of these improvements through practical solutions to a number of scientific and engineering problems Readers will discover techniques for modernizing algorithms written in Fortran examples of Fortran interoperating with C or C programs plus using the IEEE floating point standard for efficiency illustrations of parallel Fortran programming using coarrays MPI and OpenMP and a supplementary website with downloadable source codes discussed in the book **Undergraduate Announcement** University of Michigan--Dearborn, 1983 History of Computing and Education 2 (HCE2) John Impagliazzo, 2006-07-27 These proceedings derive from an international conference on the history of computing and education This conference is the second of hopefully a series of conferences that will take place within the International Federation for Information Processing IFIP and hence we describe it as the Second IFIP Conference on the History of Computing and Education or simply History of Computing and Education 2 HCE2 This volume consists of a collection of articles presented at the HCE2 conference held in association with the IFIP 2006 World Computer Congress in Santiago Chile Articles range from a wide variety of educational and computing perspectives and represent activities from five continents The HCE2 conference represents a joint effort of the IFIP Working Group 9.7 on the History of Computing and the IFIP Technical Committee 3 on Education The HCE2 conference brings to light a broad spectrum of issues It illustrates topics in computing as they occurred in the early days of computing whose ramifications or overtones remain with us today Indeed many of the early challenges remain part of our educational tapestry most likely many will evolve into future challenges Therefore these proceedings provide additional value to the reader as it will reflect in part the future development of computing and education to stimulate new ideas and models in educational development These proceedings provide a spectrum of interesting articles spanning many topics of historical interest *Announcement* University of Michigan--Dearborn, 1979 Federal Software Exchange Catalog , 1986 *Argonne Computing Newsletter* , 1990-11
