

I use Maths daily in my professional role.

Maths helps me to understand and learn from research papers, to keep accurate dental records for my clients and to help diagnose and monitor the progression of oral recovery from dental disease. As I am partly self-employed, I also use Maths to manage and monitor my financial accounts and to organise and achieve my time. Maths was not my strongest subject in school but understanding where Maths fits in dentistry has been invaluable in supporting the development of the career I love.

Tracy Doyle - General Hygienist BELFAST

As a Quantity Surveyor working on a Construction Project, I am responsible for monitoring and checking the project costs.

The role involves ensuring the procurement of materials and subcontractors are managed within the project budget. Maths is very important in the role of a Quantity Surveyor as nearly all aspects of the job involve numbers. Whether this be measuring to check quantities of materials needed (using area formulae learned at school) or working out money due for payment to subcontractors, Maths plays a role.

Gregory Patten - Quantity Surveyor Belfast Ash & BELFAST

I use Maths throughout every day and would not have the business or career I have today without it.

I own and manage at Property Gut, a company finding investment property for clients, understanding how to apply Maths is really important in the workplace. You don't need to be the best at Maths but you definitely need to appreciate how important it will be when you leave school. Maths was my foundation to becoming a self-employed business owner. It has been a great opportunity to see yourself up for the life if you make Maths a part of your life now.

Elaine Courtney - Company Director at Property Gut BELFAST

I use Maths every day to develop a plan and roadmap for different products.

As a senior product manager at Northcote I am responsible for deciding which software product features should be built next, helping teams to build these features, and reporting on how they are doing next after being released. Some of the mathematical topics I use most frequently are probability, statistics and data analysis. It helps me to keep track of my workload, ensuring customers are always satisfied with our products.

Omar Bayat - Product Manager, Northcote BELFAST

MATHS AT WORK! #IUSEMATHS

Every day I use Maths to predict the future.

As a Data Scientist, I build and deploy predictive models that help us understand customers and our business at Adlonia. We use complex mathematical equations to understand how likely an event is, to understand images and to extract important insights from text. It's not just the mathematical methods that I learn at school and university, it's the problem-solving and logical thinking that help me to do my job. Maths is at the centre of so many things in our world today. From Maths for recommendations to self-driving cars, it's a fun time to be a mathematician!

Rebecca Watson - People Analytics Senior Manager at Adlonia BELFAST

Most young people will go through over 10 different career paths in their lifetime, including jobs that haven't even been designed yet!

In my role now, I support high universities or leave around maths and lifelong learning. Understanding how to choose numbers and how to get answers to different questions is a key skill set all need in our careers. I can use the way my Maths teachers taught me improving my Maths skills is a crucial way to ensure you are ready for solving new challenges and can recognise the path you want in life.

Colin Haggan - Policy Executive, Irish Universities Association BELFAST
