Richard Tobias *Victorian Poetry*

The Powers of Distance Amanda Anderson, 2018-06-05 Combining analysis of Victorian literature and culture with forceful theoretical argument The Powers of Distance examines the progressive potential of those forms of cultivated detachment associated with Enlightenment and modern thought Amanda Anderson explores a range of practices in nineteenth century British culture including methods of objectivity in social science practices of omniscience in artistic realism and the complex forms of affiliation in Victorian cosmopolitanism Anderson demonstrates that many writers including George Eliot John Stuart Mill Charlotte Bront Matthew Arnold and Oscar Wilde thoughtfully address the challenging moral questions that attend stances of detachment In so doing she offers a

revisionist account of Victorian culture and a tempered defense of detachment as an ongoing practice and aspiration The Powers of Distance illuminates its historical object of study and provides a powerful example for its theoretical argument showing that an ideal of critical detachment underlies the ironic modes of modernism and postmodernism as well as the tradition of Enlightenment thought and critical theory Its broad understanding of detachment and cultivated distance together with its focused historical analysis will appeal to theorists and critics across the humanities particularly those working in literary and cultural studies feminism and postcolonialism Original in scope and thesis this book constitutes a major contribution to literary history and contemporary theory Social Values and Poetic Acts Jerome J. McGann, 1988
