My Journey Through Breast Cancer Eve Preste, 2012-10 Eve Preste aka Eve Dolansky grew up in a small town in Appleton, New York, on a large fruit farm. She went to college at Niagara University and Buffalo State College to study journalism. After meeting her first husband, she moved to Florida and had two daughters, Alexis and Sierra. She then embarked on a 20-year journey in the financial industry. At 45, she was diagnosed with breast cancer. Journaling became her vehicle of deliverance from a bottomless abyss. Writing in her journal allowed her to spend time and make some sense of this surreal dream. By exploring deep within herself, she began to develop clarity in the midst of a storm. After yielding to the higher power, it helped her welcome the beauty of the entire situation. As Dr. Wayne Dyer says, "When you change the way you look at things, the things you look at change." Perfect health is balanced by a life-threatening disease. Once an equilibrium is maintained, we can understand that opposites are joined together. When suffering comes our way, it is how we respond to it that determines who we become. It was her choice to make a calamity or true gift out of her illness. Rather than lamenting, Eve chose to be grateful for each sunrise, sunset, person, and circumstance in her life. After being diagnosed with breast cancer, Eve embarked on a new journey of wellness. She hopes to establish a wellness center to help people balance their mind, body, and spirit. One
