The Modern Girl Jane Nicholas,2015-03-27 With her short skirt bobbed hair and penchant for smoking drinking dancing and jazz the Modern Girl was a fixture of 1920s Canadian consumer culture She appeared in art film fashion and advertising as well as on the streets of towns from coast to coast In The Modern Girl Jane Nicholas argues that this feminine image was central to the creation of what it meant to be modern and female in Canada Using a wide range of visual and textual evidence Nicholas illuminates both the frequent public debates about female appearance and the realities of feminine self presentation She argues that women played an active and thoughtful role in their embrace of modern consumer culture even when it was at the risk of serious social economic and cultural penalties The first book to fully examine the Modern Girl s place in Canadian culture The Modern Girl will be essential reading for all those interested in the history of gender sexuality and the body in the modern world **Brotherhood Economics** Rusty Neal,1998 Westward Bound Lesley Erickson,2011-08-01 Westward Bound debunks the myth of Canada s peaceful West and the masculine conceptions of law and violence upon which it rests by shifting the focus from Mounties and whisky traders to criminal cases involving women between 1886 and 1940 Erickson s analysis of these cases shows that rather than a desire to protect official responses to the most intimate or violent acts betrayed an impulse to shore up the liberal order by maintaining boundaries between men and women Native people and newcomers and capital and labour Victims and accused could only hope to harness entrenched ideas about masculinity femininity race and class in their favour This fascinating exploration of hegemony and resistance in key contact zones draws prairie Canada into larger debates about law colonialism and nation building *Feminist History in Canada* Catherine Carstairs,Nancy Janovicek,2013-11-25 In the late 1970s feminist historians urged us to rethink Canada by placing women s experiences at the centre of historical analysis Forty years later feminism continues to inform history writing and has inspired historians to look beyond the nation and adopt a more global perspective This exciting new volume of original essays opens with a discussion of the themes and methodological approaches that have preoccupied historians over the past twenty years The chapters that follow showcase the work of new and established scholars who draw on critical race theory postcolonial theory and transnational history to re examine familiar topics such as biography and oral history paid and unpaid work marriage and family and women s political action Whether they focus on the marriage of Governor James Douglas and his Metis wife Amelia or on the experiences of Qu b cois domestic workers in the 1970s the contributors demonstrate the continued relevance of history informed by feminist perspectives and open a much needed dialogue between francophone and anglophone historians in Canada This Small Army of Women Linda J. Quiney,2017-05-01 With her soft linen head scarf and white apron emblazoned with a red cross the Voluntary Aid Detachment nurse or VAD has become a romantic emblem of the First World War This Small Army of Women draws on diaries letters and interviews to tell the forgotten story

of the nearly two thousand women from Canada and Newfoundland who volunteered to do their bit at home and overseas. Middle class and well educated but largely untrained VADs were excluded from Canadian military hospitals overseas the realm of the professional nurse but helped solve Britain's nursing deficit and filled gaps in Canada's domestic nursing ranks. Their dedication and struggle to secure a place at their brothers' bedsides reveals much about women's contributions to the war effort, the tensions between amateur and professional nurses and women's evolving role outside the home.

Becoming British Columbia John Belshaw, 2009-07-01 *Becoming British Columbia* is the first comprehensive demographic history of British Columbia. Investigating critical moments in the demographic record and linking demographic patterns to larger social and political questions, it shows how biology, politics and history conspired with sex, death and migration to create a particular kind of society. John Belshaw overturns the widespread tendency to associate population growth with progress. He reveals that the province has a long tradition of thinking and acting vigorously in ways meant to control and shape biological communities of humans and suggests that imperialism, race, class and gender have historically situated population issues at the centre of public consciousness in British Columbia.

Tending the Student Body Catherine Gidney, 2015-02-05 In the early twentieth century, university administrators and educators regarded bodily health as a marker of an individual's moral and mental strength and as a measure of national vitality. Beset by social anxieties about the physical and moral health of their students, they introduced compulsory health services and physical education programs in order to shape their students' character. *Tending the Student Body* examines the development of these health programs at Canadian universities and the transformation of their goals over the first half of the twentieth century, from fostering moral character to promoting individualism, self-realization and mental health. Drawing on extensive records from Canadian universities, Catherine Gidney examines the gender and class dynamics of these programs, their relationship to changes in medical and intellectual thought and their contribution to ideas about the nature and fulfilment of the self. Her research will be of interest to historians of medicine, gender, sport and higher education.

Food Will Win the War Ian Mosby, 2014-05-21 During WWII, as Canada struggled to provide its allies with food, nutritionists warned that malnutrition could derail the war effort. Posters admonished women and children to Eat Right, Feel Right because Canada Needs You Strong, while cookbooks helped housewives become housewives through food rationing, menu substitutions and household production. *Food Will Win the War* explores the symbolic and material transformations that food and eating underwent during the war and the profound social, political and cultural changes that took place in the 1940s. Through official food guides and policies, the state took unprecedented steps into the kitchens of the nation, transforming the way women cooked, what their families ate and how people thought about food. Canadians in turn rallied around food and nutrition to articulate new visions of citizenship for their postwar future.
