Democracy***

An Essay on Certain Political
and Economic Tendencies
in the United States

**With a new introduction by
Sidney A. Pearson, Jr.**

New Democracy An Essay On Certain Politi

Walter Edward Weyl

New Democracy An Essay On Certain Politi:

The New Democracy Walter Edward Weyl, 1927 *The New Democracy* Walter Edward Weyl, 2005 When *The New Democracy* first appeared in 1912 it was widely regarded as one of the most influential works of the Progressive Era Yet despite continuing interest in the political thought of the Progressive Era both Weyl and *The New Democracy* slipped into undeserved obscurity shortly after the author's death from cancer in 1919 Despite this Weyl's book remains one of the most important links in the development of a liberal progressive theory of democracy Weyl describes the efforts of a plutocracy seeking to control often by corrupt means the federal government He attacks the Founding Fathers motives and reads the Constitution as an anti democratic document produced by aristocrats attempting to protect their own economic interests in troubled times In contrast to many of his predecessors Weyl rejects Natural Law and sees the distribution of wealth as the fundamental issue in political life For Weyl rights are not defined by Nature but by human institutions that distribute wealth He supported a stronger federal government one that provides more rights and economic equality for the common citizen In his opening essay for this new edition of *The New Democracy* Sidney A Pearson Jr painstakingly explores Weyl's life influence political philosophy the origins of the book and the author's subsequent descent into obscurity This classic work will be of interest to students of political science government and American political theory At last the progressive movement in American politics has a book worthy of its deep and wide significance a brilliant book one with literary fascination as well as intellectual grasp *The New Democracy* emphatically belongs to the books one ought to read It is written with knowledge imagination judgment sane idealism a wealth of apt metaphors and a rare command of pure and flexible English Edwin L Shuman lecturer Northwestern University and author of *Practical Journalism* and *How to Judge a Book* Walter E Weyl 1873-1919 was a co founding editor of the *New Republic* and the author of several books on political science including *The End of the War* *American World Policies* and *Tired Radicals* Sidney A Pearson Jr is professor emeritus of political science at Radford University and series editor of Transaction's Library of Liberal Thought **The Hollow Parties** Daniel Schlozman, Sam Rosenfeld, 2025-10-28 A major history from the Founding to our embittered present that explains the void Politico at the center of America's political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America's political parties are hollow shells of what they could be locked in a polarized struggle for power and unrooted as civic organizations *The Hollow Parties* takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump Today's parties at once overbearing and ineffectual have emerged from the interplay of multiple party traditions that reach back to the Founding Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren whose pioneering Democrats invented the machinery of the mass political party and Abraham Lincoln and other heroic Republicans of that party's first generation who stood up to the Slave Power And they show how today's fractious party politics arose from the ashes of the New Deal order in the 1970s Activists in the wake of the

1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust movement driven parties. Instead, modern American conservatism hollowed out the party system, deeming it a mere instrument for power. Party hollowness lies at the heart of our democratic discontents. With historical sweep and political acuity, *The Hollow Parties* offers powerful answers to pressing questions about how the nation's parties became so dysfunctional and how they might yet realize their promise.

The New Democracy Walter Edward Weyl, Sidney A. Pearson, 2017. When *The New Democracy* first appeared in 1912, it was widely regarded as one of the most influential works of the Progressive Era. Yet despite continuing interest in the political thought of the Progressive Era, both Weyl and *The New Democracy* slipped into undeserved obscurity shortly after the author's death from cancer in 1919. Despite this, Weyl's book remains one of the most important links in the development of a liberal progressive theory of democracy. Weyl describes the efforts of a plutocracy seeking to control, often by corrupt means, the federal government. He attacks the Founding Fathers' motives and reads the Constitution as an anti-democratic document produced by aristocrats attempting to protect their own economic interests in troubled times. In contrast to many of his predecessors, Weyl rejects Natural Law and sees the distribution of wealth as the fundamental issue in political life. For Weyl, rights are not defined by Nature but by human institutions that distribute wealth. He supported a stronger federal government, one that provides more rights and economic equality for the common citizen. In his opening essay for this new edition of *The New Democracy*, Sidney A. Pearson Jr. painstakingly explores Weyl's life, influence, political philosophy, the origins of the book, and the author's subsequent descent into obscurity. This classic work will be of interest to students of political science, government, and American political theory.

Provided by publisher ***Living Legislation*** William J. Novak, Jeffrey E. Cohen, Matthew Eshbaugh-Soha, Sean Gailmard, Christopher R. Berry, Barry C. Burden, William G. Howell, Forrest Maltzman, Charles R. Shipan, Amihai Glazer, David E. Lewis, Stuart Chinn, Vesla M. Weaver, David R. Mayhew, Sidney M. Milkis, 2020-03-04. Political scholars examine the dynamic evolution of laws over time in a volume that pushes the frontiers of knowledge about lawmaking in the US. Choice Politics is at its most dramatic during debates over important pieces of legislation. And while debates over legislative measures can rage for years or even decades before an item is enacted, they also endure long afterward when the political legacy of a law eventually comes into focus. With a diverse set of contributors including quantitative political scientists, political development scholars, historians, and economists, *Living Legislation* provides fresh insights into contemporary American politics and public policy. Many of the contributors to this volume focus on the question of why some laws stand the test of time while others are eliminated, replaced, or significantly amended. Others discuss how laws emerge from and effect change within coalition structures, the effectiveness of laws at mediating partisan conflicts, and the ways in which laws interact with broader shifts in the political environment. An essential addition to the study of politics, *Living Legislation* enhances understanding of democracy, governance, and power.

Politics and Progress Dennis J. Mahoney, 2004-01-01

Mahoney describes the emergence of American political science as a separate academic discipline in the era between the Civil War and the First World War with the pivotal event of the founding of the American Political Science Association in 1903 His book a testament to the integrity of American political science chronicles its intellectual and cultural development

Tax Politics and Policy Michael Thom, 2017-02-03 Taxes are an inescapable part of life They are perhaps the most economically consequential aspect of the relationship between individuals and their government Understanding tax development and implementation not to mention the political forces involved is critical to fully appreciating and critiquing that relationship Tax Politics and Policy offers a comprehensive survey of taxation in the United States It explores competing theories of taxation s role in civil society investigates the evolution and impact of taxes on income consumption and assets and highlights the role of interest groups in tax policy This is the first book to include a separate look at sin taxes on tobacco alcohol marijuana and sugar The book concludes with a look at tax reform ideas both old and new This book is written for a broad audience from upper level undergraduates to graduate students in public policy public administration political science economics and related fields and anyone else that has ever paid taxes *The New Democracy* Walter Edward Weyl, 1912

Making the American Team Mark Dyreson, 2024-04-22 Sport dominates television and the mass media Politics and business are a bustle with sports metaphors Endorsements by athletes sell us products Home run slam dunk and the rest of the vocabulary of sport color daily conversation Even in times of crisis and emergency the media reports the scores and highlights Marky Dyreson delves into how our obsession with sport came into being with a close look at coverage of the Olympic Games between 1896 and 1912 How people reported and consumed information on the Olympics offers insight into how sport entered the heart of American culture as part of an impetus for social reform Political leaders came to believe in the power of sport to revitalize the republican experiment Sport could instill a new sense of national identity that would forge a new sense of community and a healthy political order while at the same time linking America s intellectual and power elite with the experiences of the masses **The Discovery of Poverty in the United States** Robert Hamlett Bremner, In contrast to cultures that have accepted poverty as inevitable Americans have tended to regard it as an abnormal condition one that may be alleviated by a combination of social reform hard work and spiritual discipline In a dispassionate way Bremner was the first to critically examine the origins and transformations of American attitudes toward poverty and reform

Unveiling the Magic of Words: A Overview of "**New Democracy An Essay On Certain Politi**"
