New Directions In Geriatric Psychopharmacology:

Principles and Practice of Geriatric Psychiatry Mohammed T. Abou-Saleh, Cornelius L. E. Katona, Anand

Kumar, 2011-07-28 The renowned Principles and Practice of Geriatric Psychiatry now in its third edition addresses the social and biological concepts of geriatric mental health from an international perspective. Featuring contributions by distinguished authors from around the world, the book offers a distinctive angle on issues in this continually developing discipline. Principles and Practice of Geriatric Psychiatry provides a comprehensive review of geriatric psychiatry spanning both psychiatric and non-psychiatric disorders, scientific advances in service development, specific clinical dilemmas. New chapters on genetics of aging, somatoform disorders, epidemiology of substance abuse, somatoform disorders, care of the dying patient. Continuing the practice of earlier editions, the major sections of the book address aging, diagnosis and assessment, and clinical conditions incorporating an engaging discussion on substance abuse and schizophrenic disorders. Shorter sections include the presentation of mental illness in elderly people from different cultures, one of the most popular sections in previous editions. Learning and behavioural studies as well as models of geriatric psychiatry practice are covered extensively. This book provides a detailed overview of the entire range of mental illness in old age presented within an accessible format. Principles and Practice of Geriatric Psychiatry is an essential read for psychiatrists, geriatricians, neurologists, and psychologists. It is of particular use for instructors of general psychiatry programs and their residents.

Functional Psychiatric Disorders of the Elderly Edmond Chiu, David Ames, 1994-09-22 Until recently the literature has sadly neglected the commonest disorders of old age which lacking a demonstrable organic basis have tended to be called functional. Professor Chiu and Dr Ames provide us with the first comprehensive text to deal with all the non-dementing psychiatric disorders in a practical guide and exhaustive reference. Interfacing psychiatry and somatic medicine and confronting the issues of co-morbidity, this text clearly outlines our core knowledge about clinical problems, discussing appropriate treatments and highlighting areas for future research. Along with case histories which bring much of the detail into lively focus, chapters are neatly cross-referenced and are rich in practical advice for multidisciplinary management strategies. A unique group of contributors of international renown includes members of a number of allied health disciplines relevant to old age psychiatry. This text is sure to be of widespread interest to all professionals concerned with the health of older people.
