The New Doveglion Book of Philippine Poetry José García Villa, 1975

Beyond the Nation Martin Joseph Ponce, 2012-02-01 Part of the American Literatures Initiative Series Beyond the Nation charts an expansive history of Filipino literature in the U S forged within the dual contexts of imperialism and migration from the early twentieth century into the twenty first Martin Joseph Ponce theorizes and enacts a queer diasporic reading practice that attends to the complex crossings of race and nation with gender and sexuality Tracing the conditions of possibility of Anglophone Filipino literature to U S colonialism in the Philippines in the early twentieth century the book examines how a host of writers from across the century both imagine and address the Philippines and the United States inventing a variety of artistic lineages and social formations in the process Beyond the Nation considers a broad array of issues from early Philippine nationalism queer modernism and transnational radicalism to music influenced and cross cultural poetics gay male engagements with martial law and popular culture second generational dynamics and the relation between reading and revolution Ponce elucidates not only the internal differences that mark this literary tradition but also the wealth of expressive practices that exceed the terms of colonial complicity defiant nationalism or conciliatory assimilation Moving beyond the nation as both the primary analytical framework and locus of belonging Ponce

proposes that diasporic Filipino literature has much to teach us about alternative ways of imagining erotic relationships and political communities The Greenwood Encyclopedia of Asian American Literature Guiyou Huang, 2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity Monumental in scope this encyclopedia surveys Asian American literature from its origins through 2007 Included are more than 270 alphabetically arranged entries on writers major works significant historical events and important terms and concepts Thus the encyclopedia gives special attention to the historical social cultural and legal contexts surrounding Asian American literature and central to the Asian American experience Each entry is written by an expert contributor and cites works for further reading and the encyclopedia closes with a selected general bibliography of essential print and electronic resources While literature students will value this encyclopedia as a guide to writings by Asian Americans the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds including Afghans Chinese Japanese Koreans Filipinos Iranians Indians Vietnamese Hawaiians and other Asian Pacific Islanders The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature In addition it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience

Asian American Poets Guiyou Huang, 2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography
