New Ecological Home:

The New Ecological Home Daniel D. Chiras, 2004 Today a new generation of architects and builders is emerging intent on creating homes that meet human needs for shelter while causing only a fraction of the environmental impact of conventional housing The New Ecological Home provides an overview of green building techniques materials products and technologies that are either currently available or will be in the near future Author Daniel Chiras provides a wealth of up to date practical information for home buyers owner builders and anyone interested in building for a sustainable future **New Eco Homes**

Manel Gutierrez, 2015-11-10 A stunning full color showcase of the latest innovations in sustainable architecture and eco friendly design featuring thirty five diverse homes Today s architects designers building craftsman and homeowners are becoming more environmentally conscious choosing eco friendly living spaces with small carbon footprints that are built with sustainable materials New Eco Homes explores various aspects of modern eco design from its environmental and economical benefits to factors considered when choosing materials how much energy went into manufacturing the product whether it is long lasting and whether it can be recycled or safely disposed of as it eventually breaks down It also examines important details involved in building such as climate regulation drainage systems and regional planning Each of the thirty five projects contain photographs floor plans and detailed drawings that illustrate certain sustainable features revealing how much the parameters of ecological design have expanded in just a few short years New Eco Homes includes an introductory interview with an international specialist in green building site plans architectural drawings and a complete directory of resources Combining concern for the environmental with aesthetic sensibility it is an essential resource for architects designers and homeowners interested in creating warm and inviting homes that are not only beautiful to inhabit but help protect and conserve our natural environment as well **150 Best New Eco Home Ideas** none, 2017-07-04 [The Eco-Home Design Guide](#)

Christopher Day, 2015-10-29 The key principles of designing a pleasant comfortable and healthy eco home with a foreword written by HRH The Prince of Wales now King Charles III Designing an eco home is much more about working with your house s location and situation than relying on intrusive technology and hi tech materials With the soaring energy bills and the climate crisis it is now more important than ever to invest in a home that is considerate of keeping heat in In this handbook architect Christopher Day draws on his extensive experience to explain the key principles of eco home design using common sense methods Packed full of practical information it includes several case studies of eco homes reviewing with hindsight what worked well and what could have been better There is also guidance on how to generate energy upgrading old buildings and site planning With beautifully hand drawn illustrations Christopher explores how to use local topography combined with landscaping to improve your home s microclimate and keep your house dry and warm in the winter and cool in the summer There are also handy tips on how to minimise hidden environmental impacts and ideas on ways to make your home a safe and healthy place both emotionally and physically The Eco Home Design Guide is essential

for anyone who wants to create a attractive environmentally friendly home that is in harmony with its location **Design for Sustainability** Janis Birkeland, 2012-05-04 With radical and innovative design solutions everyone could be living in buildings and settlements that are more like gardens than cargo containers and that purify air and water generate energy treat sewage and produce food at lower cost Birkeland introduces systems design thinking that cuts across academic and professional boundaries and the divide between social and physical sciences to move towards a transdisciplinary approach to environmental and social problem solving This sourcebook is useful for teaching as each topic within the field of environmental management and social change has pairs of short readings providing diverse perspectives to compare contrast and debate Design for Sustainability presents examples of integrated systems design based on ecological principles and concepts and drawn from the foremost designers in the fields of industrial design materials housing design urban planning and transport landscape and permaculture and energy and resource management **Environmental Science** Daniel D. Chiras, 2013 Completely updated the ninth edition of Environmental Science enlightens students on the fundamental causes of the current environmental crisis and offers ideas on how we as a global community can create a sustainable future
