New Environmental Age:

The New Environmental Age Max Nicholson, 1987 The message of this book is that a concern for environmental issues no longer needs justification Its aim is to put environmental conservation into perspective by looking at its achievements failures and problems and by examining the challenges and opportunities it faces **Spaceship Earth in the Environmental Age, 1960-1990** Sabine Höhler, 2015-10-06 The idea of the earth as a vessel in space came of age in an era shaped by space travel and the Cold War Höhler's study brings together technology science and ecology to explore the way this latter day ark was invoked by politicians environmentalists cultural historians writers of science fiction and many others across three decades **The New Environmental Age** R. K. Sapru, Shyama Bhardwaj, 1990-01-01 **A Companion to Global Environmental History** J. R. McNeill, Erin Stewart Mauldin, 2015-05-04 The Companion to Global Environmental History offers multiple points of entry into the history and historiography of this dynamic and fast growing field to provide an essential road map to past developments current controversies and future developments for specialists and newcomers alike Combines temporal geographic thematic and contextual approaches from prehistory to the present day Explores environmental thought and action around the world to give readers a cultural intellectual and political context for engagement with the environment in modern times Brings together environmental historians from around the world including scholars from South Africa Brazil Germany and China **Environmental Politics and Institutional Change** Elim Papadakis, 1996-11-18 An examination of the responsiveness of Australian political institutions to environmental concerns *Environmental Issues in the Curricula of International Business* Héctor R. Lozada, 1993 If today's business schools are to fulfill their obligation to produce the managers of the future academic training has to include environmental awareness This book provides a better understanding of the dramatic implications that environmental concerns are having on the practice of business and on the teaching of business practices It creates and enhances environmental awareness fostering creative thinking in a manner consistent with the objectives of business schools Environmental Issues in the Curricula of International Business discusses the necessity and criticality of environmental awareness to business practices in the 1990s and beyond drawing a link between this information and its application to business curricula Chapters discuss the many implications of the Green movement and increased environmental concerns on international business and how this affects the obligations of business educators Additional chapters focus on environmental ethics and responsibilities Some specific topics covered include the effects of the green challenge to business schools in the light of the environmental needs of business organizations the impact of an ecological approach to the development of a sustainable economy a description of six potential avenues for academic business involvement in environmental business teaching research and service curriculum development incorporating the theme of environmental ethics in international business education a contrasting look at two models for including environmental ethics in the international business curricula This groundbreaking book emphasizes the

responsibilities of educators and researchers for the inclusion of environmental consciousness in the present curriculum in business schools Marketing and management academics professionals specializing in the environment and ethics and business school deans and university presidents will find this book a vital tool for incorporating environmental concerns into their curricula
