New Expectations James A. Levine, 1995 *Fathering* Annie Devault, Gilles Forget, Diane Dubeau, 2015-11-26 In the past few decades researchers and practitioners have moved away from the idea of fatherhood as a single monolithic concept Examining the challenges of vulnerable fathers such as those in poverty or in prison they have developed valuable new strategies for cultivating the positive involvement of fathers in the lives of their children Drawing on the innovative work of Prospera a Quebec organization that brought together fathers university researchers and health and social service practitioners *Fathering* details innovative approaches that support positive father involvement It provides numerous examples of strategies and interventions with fathers lessons learned from these practices on how to better support vulnerable fathers and families and in depth information on ways of designing implementing evaluating and disseminating the results of participatory action research PAR a methodology which put fathers at the heart of the project's decision making **Group Parent Education** Deborah Campbell, Glen Palm, 2004 For those working in group parent education I am sure it will be a valuable resource and make its way onto the essential reading list of many courses *Journal In Service Education* This book is devoted to training parent educators and family counsellors and represents a unique and important contribution to the growing field of parent education and support programmes The authors build upon the rich traditions of group parent education while incorporating contemporary theory and practice *Taking Parenting Public* Cornel West, Sylvia Ann Hewlett, Nancy Rankin, 2002-02-05 *Taking Parenting Public* makes a compelling case that parenting has become dangerously undervalued in America today It calls for a new investment both personal and public into the work of raising children and argues that we are all stockholders in the next generation With a foreword by Sylvia Ann Hewlett and Cornel West *Taking Parenting Public* crosses boundaries to bring together thinkers from diverse fields spanning the political spectrum It features contributions from distinguished experts in economics political science public policy child development public health history and the media While recent books have focused on working mothers or absent fathers *Taking Parenting Public* is the first volume to take a comprehensive look at the common struggles of parents These essays go beyond the usual calls for more and better child care and other strategies of parent replacement to offer fresh ideas for parent replenishment ways of putting mothers and fathers back into the lives of their children not only as economic providers but also as emotional and moral providers For more information visit the National Parenting Association Web site *Raising Children* Jill Duerr Berrick, Neil Gilbert, 2008-02-11 With society in a constant state of flux it is critically important that society collectively assesses our family and child policies to ensure that they provide families with the assistance they need Drawing on the rich interdisciplinary work of the Berkeley Center for Child and Youth Policy this is an eye opening look at some of the biggest issues facing the family today which are as complex as they are vital to address in a thoughtful way *Social Work With African American Males* Waldo E. Johnson Jr., 2010-05-26 African American males have never fared as poorly as they do currently on a number

of social indicators They are less likely to complete high school than their white male and female or African American female peers they are more likely to exhibit depressive symptoms and they have fewer sanctioned coping strategies Arguably no other group in American society has been more maligned regularly faced with tremendous odds that uniquely threaten their existence When they do receive education mental health and physical health services it is often in correctional settings They are marginalized in public policies on secondary and higher education attainment marriage and parental expectations public welfare health housing and community development Yet they remain overlooked in health and social science research and are stereotyped in the popular media Taking a step back from the traditionally myopic view of African American males as criminals and hustlers this groundbreaking book provides a more nuanced and realistic portrait of their experiences in the world Chapter authors both established and emerging scholars of social problems relevant to African Americans offer a comprehensive overview of the social and economic data on black males to date and the significant issues that affect them from adolescence to adulthood Via in depth qualitative interviews as well as comprehensive surveys and data sets their physical mental and spiritual health and emerging family roles are considered within both individual and communal contexts Chapters cover health issues such as HIV and depression fatherhood and family roles suicide violence academic achievement and incarceration With original research and a special eye toward enhancing social work and social welfare intervention practice with this often overlooked subpopulation of American society this volume will be of great interest to researchers interested in African American issues students practitioners and policy makers

Social Work Diagnosis in Contemporary Practice Francis J. Turner, 2005-02-10 The unifying theme of this broad reaching volume is that responsible ethical and effective social work practice rests on the diagnostic skills of the practitioner Social work diagnosis refers to the conscious formulation of an ongoing set of decisions about the client and his or her situation which serve as the basis for intervention decisions for which the practitioner must be prepared to take responsibility Diagnostic skill development is an ongoing process principally enhanced by a continuous commitment to remain at the cutting edge of the profession's body of knowledge but one of the challenges for today's practitioner is keeping abreast of the rapidly expanding body of knowledge contained in some 200 important social work periodicals in circulation Francis J Turner a preeminent clinical scholar brings together in one volume some of the best work published since 2000 each reflecting new insights into understanding psychosocial situations and innovative methods of applying knowledge and skills in an increasingly effective manner Each of the 78 articles in this volume highlights some of the critical dimensions of contemporary social work practice guiding clinicians to address four key aspects in order to craft an accurate diagnosis The first section presents articles covering the developmental spectrum each of which fully explains various ages and stages of development The second section focuses on a range of specific situations helping practitioners and students enrich their understanding of different types of problems they meet in contemporary practice whether they are based in mental illness psychosocial issues or physical ailments The

third section addresses the crucial component of diversity demonstrating the complexity and critical importance of truly understanding clients and their lives The last section of the book discusses innovative approaches to practice selected to offer practitioners easy access to the latest interventions for a host of contemporary challenges facing clients and their therapists Broad in scope and tightly focused on the goal of providing the most up to date information necessary for accuracy in the diagnostic process this volume represents some of the best research available to today s social workers
