Phelps, 2024-02-02 With the emergence of a truly global marketplace regions now face far greater competition in attracting outside investment and multinational companies have to consider local conditions on many levels before choosing to invest Foreign Direct Investment and the Global Economy looks at the pattern of FDI and its impacts on the global regional trade block national and sub national scales The contributors describe the much discussed global local interlay apparent in the operations of multinational companies and their involvement with regulatory institutions at different levels from the global to the local [Index of Economic Articles in Journals and Collective Volumes](#) American Economic Association, 2003 [Index of Economic Articles in Journals and Collective Volumes](#) , 2003

International Labour Documentation International Labour Organization. Central Library and Documentation Bureau, 1997 **Selected Acquisitions** Robert Crown Law Library, 1995 **The New Dynamics of Multilateralism** James P. Muldoon, Joann Fagot Aviel, Richard Reitano, 2018-04-19 This timely new book focuses on the various dynamics of contemporary multilateralism as it relates to global issues global governance and global institutions Invited authorities including academics business people and members of international groups contribute original essays on how multilateralism as an institution has been affected by globalization the rise of civil society and global business emerging economic and political conditions and new threats to peace and security in the world Emphasizing practical applications over theoretical foundations The New Dynamics of Multilateralism helps students understand how the practice of multilateral diplomacy has been influenced by the changes in the processes and procedures of international organizations and the role of multilateralism in the transformation of the international system of governance and the transition to an emerging new global order

[American Book Publishing Record](#) , 2004 **Global Development and Human Security** Robert Picciotto, 2017-07-05 Global Development and Human Security explores the possibility of connecting all countries to the global economy while defusing the social tensions and managing the security risks that can result from exposure to a turbulent international system The complex intersection between security and development policies has not been adequately mapped or explored Frail and failing states that lack sound market and security institutions are the weak links in an interconnected global system Yet aid allocation principles discourage engagement with these difficult partners and the insular culture of development assistance hinders interaction with the security community In a world beset by problems without passport infectious diseases environmental pollution international crime conflict spillovers terrorism etc a new paradigm should supplant the now

obsolete development consensus The authors took stock of current development practices through the prism of Sweden's Shared Responsibility bill which addresses peace security opportunity environmental conservation human rights and democracy The resulting volume draws the implications of emerging threats to global peace and prosperity for development policy and practice It seeks to build bridges of understanding between the development community and the security establishment by bringing together lessons of experience currently scattered in the literature Each chapter is self contained and includes policy findings and recommendations The book is principally aimed at practitioners who need up to date knowledge about security and development issues Publication of this paperback edition makes the book available for use as an introductory text for security specialists with little knowledge of development or for development specialists with limited knowledge of security or for college or university students in these areas
