They Are Not Machines Chun Soonok, 2017-09-29 The multi faceted tensions created in developing countries between a burgeoning popular desire for democracy and the harsh imperatives of modernisation and industrialisation are nowhere more evident than in the so called Asian tiger nations Of all those nascent economies South Korea in the 1960s and 1970s stands pre eminent for the magnitude and speed of its development and the extraordinarily oppressive and inhumane conditions that its labour force mainly women and young girls were compelled to endure The author of this book was one of those young girls who suffered in the warren of sweat shop garment factories in the slums of central Seoul With little or no support from male co workers and despite their political naivety and the traditionally subordinate status of Korean females the women textile and garment workers confronted the ruling authority at all levels The author s mother was one of their leaders and her eldest brother sacrificed his life for their cause Despite appalling state directed violence betrayal by erstwhile colleagues the chicanery and mendacity of employers cooperatives and countless other setbacks these uneducated and overworked women finally succeeded in forming the first fully democratic trade union in the history of Korea Based on compelling personal accounts this is the first published account of the women s struggle and it throws much light on the process of modernisation and industrialisation in Korea and beyond

Contentious Activism and Inter-Korean Relations

Danielle L. Chubb, 2014-02-04 In South Korea the contentious debate over relations with the North transcends traditional considerations of physical and economic security and political activists play a critical role in shaping the discussion of these issues as they pursue the separate yet connected agendas of democracy human rights and unification Providing international observers with a better understanding of policymakers management of inter Korean relations Danielle L Chubb traces the development of various policy disputes and perspectives from the 1970s through South Korea s democratic transition Focusing on four case studies the 1980 Kwangju uprising the June 1987 uprising the move toward democracy in the 1990s and the decade of progressive government that began with the election of Kim Dae Jung in 1997 she tracks activists complex views on reunification along with the rise and fall of more radical voices encouraging the adoption of a North Korean style form of socialism While these specific arguments have dissipated over the years their vestiges can still be found in recent discussions over how to engage with North Korea and bring security and peace to the peninsula Extending beyond the South Korean example this examination shows how the historical trajectory of norms and beliefs can have a significant effect on a state s threat perception and security policy It also reveals how political activists in their role as discursive agents play an important part in the creation of the norms and beliefs directing public debate over a state s approach to the ethical and practical demands of its foreign policy

They are Not Machines Sun-ok Chŏn, 2003 Examining the dark underbelly of the South Korean economic miracle Chun Soonok outlines the political and economic history of Korea in the 1960s and 1970s with female staffed textile sweatshops at the forefront of economic development Based on compelling personal accounts this is the first published account of the women workers struggle and it throws much light on the process of modernization and industrialization in Korea beyond
