Pierre,2007-05-23 The past two decades have been marked by a period of substantial and often fundamental change in public administration Critically reflecting on the utility of scholarly theory and the extent to which government practices inform the development of this theory the Handbook of Public Administration was a landmark publication which served as an essential guide for both the practice of public administration today and its on going development as an academic discipline The Concise Paperback Edition provides a selection of 30 of the original articles in an accessible paperback format and includes a new introduction by B Guy Peters and Jon Pierre It is an essential point of reference for all students of public administration

Radin,2012-03-12 Proposals for reform have dotted the federal management landscape in the United States for more than 50 years Yet these efforts by public management professionals have frequently failed to produce lasting results In her new book Federal Management Reform in a World of Contradictions renowned public administration scholar Beryl A Radin reveals what may lie behind the failure of so many efforts at government management reform To spur new thinking about this problem Radin examines three basic sets of contradictions between the strategies of the reformers and the reality of the US federal system contradictions in the shared powers structure contradictions in values and contradictions between politics and administration She then explores six types of reform efforts and the core beliefs that guided them The six reform areas are contracting out personnel policy agency reorganization budgeting federalism policies and procedures and performance management The book shows how too often these prescriptions for reform have tried to apply techniques from the private

sector or a parliamentary system that do not transfer well to the structure of the US federal system and its democratic and political traditions Mindful of the ineffectiveness of a one size fits all approach Radin does not propose a single path for reform but calls instead for a truly honest assessment of past efforts as today s reformers design a new conceptual and strategic roadmap for the future
