Donald Preziosi, 2011-07-11 No detailed description available for Minoan Architectural Design **Current Approaches and New Perspectives in Aegean Iconography** Fritz Blakolmer, 2020-06-25 The aim of this volume is to present an overview of current trends and individual methodological attempts towards arriving at an adequate understanding of Minoan Cycladic and Mycenaean iconography **The Greenwood Encyclopedia of Homes through World History** James M. Steele, 2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present *Temple University Aegean Symposium* Philip P. Betancourt, 2015-12-31 The Temple University Aegean Symposium was an annual event from 1976 until 1985 sponsored by the Department of Art History at Temple University in Philadelphia PA Each year the symposium focused on a specific theme in Aegean Bronze Age art and archaeology This book is a collection of the 10 volumes of articles that were published Aside from incorporating errata the articles are unchanged from the original publications A new Preface and page numbering system are included in this compendium Representations of Gender From Prehistory To the Present NA NA, 2016-04-30 Focusing primarily on visual forms of representation but also including material on literary representation this volume brings together studies as apparently disparate as the iconography of power in Mediterranean prehistory and clothing and cultural meaning in the First and Second World Wars What draws these chapters together is the common focus on how the scholar of the twenty first century can pursue the interpretation of past representational cultural production from a gendered perspective The fruit of research by academics from the fields of archaeology classics and ancient history art history and social history and from both sides of the Atlantic this volume is a fascinating introduction to a developing field
