therefore far more valuable and even authentic than the historical verisimilitude for which it ostensibly strives could ever be. These essays cast fresh light on many aspects of contemporary music making and music thinking, mixing lighthearted debunking with impassioned argumentation. Taruskin ranges from theoretical speculation to practical criticism and covers a repertory spanning from Bach to Stravinsky. Including a newly written introduction, *Text and Act* collects the very best of one of our most incisive musical thinkers.
