Ono, 2008-04-15 *A Companion to Asian American Studies* is comprised of 20 previously published essays that have played an important historical role in the conceptualization of Asian American studies as a field Essays are drawn from international publications from the 1970s to the present Includes coverage of psychology history literature feminism sexuality identity politics cyberspace pop culture queerness hybridity and diasporic consciousness Features a useful introduction by the editor reviewing the selections and outlining future possibilities for the field Can be used alongside *Asian American Studies After Critical Mass* edited by Kent A Ono for a complete reference to Asian American Studies **Strangers from a Different Shore**, 2012-11 In an extraordinary blend of narrative history personal recollection oral testimony the author presents a sweeping history of Asian Americans He writes of the Chinese who laid tracks for the transcontinental railroad of plantation laborers in the canefields of Hawaii of picture brides marrying strangers in the hope of becoming part of the American dream He tells stories of Japanese Americans behind the barbed wire of U S internment camps during World War II Hmong refugees tragically unable to adjust to Wisconsin's alien climate culture Asian American students stigmatized by the stereotype of the model minority This is a powerful moving work that will resonate for all Americans who together make up a nation of immigrants from other shores **To Be An American** Bill Ong Hing, 1997-03-01 The impetus behind California's Proposition 187 clearly reflects the growing anti immigrant sentiment in this country Many Americans regard today's new immigrants as not truly American as somehow less committed to the ideals on which the country was founded In clear precise terms Bill Ong Hing considers immigration in the context of the global economy a sluggish national economy and the hard facts about downsizing Importantly he also confronts the emphatic claims

of immigrant supporters that immigrants do assimilate take jobs that native workers don't want and contribute more to the tax coffers than they take out of the system A major contribution of Hing's book is its emphasis on such often overlooked issues as the competition between immigrants and African Americans inter group tension and ethnic separatism issues constantly brushed aside both by immigrant rights groups and the anti immigrant right Drawing on Hing's work as a lawyer deeply involved in the day to day life of his immigrant clients *To Be An American* is a unique blend of substantive analysis policy and personal experience

A Different Mirror Ronald Takaki, 2012-06-05 Takaki traces the economic and political history of Indians African Americans Mexicans Japanese Chinese Irish and Jewish people in America with considerable attention given to instances and consequences of racism The narrative is laced with short quotations cameos of personal experiences and excerpts from folk music and literature Well known occurrences such as the Triangle Shirtwaist Factory Fire the Trail of Tears the Harlem Renaissance and the Japanese internment are included Students may be surprised by some of the revelations but will recognize a constant thread of rampant racism The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along Readers will find this overview to be an accessible cogent jumping off place for American history and political science plus a guide to the myriad other sources identified in the notes

Engage/social Action, 1981

Passages to America Emmy E. Werner, 2009-08-31 More than twelve million immigrants many of them children passed through Ellis Island's gates between 1892 and 1954 Children also came through the Guardian of the Western Gate the detention center on Angel Island in California that was designed to keep Chinese immigrants out of the United States Based on the oral histories of fifty children who came to the United States before 1950 this book chronicles their American odyssey against the backdrop of World Wars I and II the rise and fall of Hitler's Third Reich and the hardships of the Great Depression Ranging in age from four to sixteen years old the children hailed from Northern Central Eastern and Southern Europe the Middle East and China Across ethnic lines the child immigrants' life stories tell a remarkable tale of human resilience The sources of family and community support that they relied on their educational aims and accomplishments their hard work and their optimism about the future are just as crucial today for the new immigrants of the twenty first century These personal narratives offer unique perspectives on the psychological experience of being an immigrant child and its impact on later development and well being They chronicle the joys and sorrows the aspirations and achievements and the challenges that these small strangers faced while becoming grown citizens
