Hope in Hard Times Timothy Kelly, Margaret Power, Michael Cary, 2016-06-03 Of the many recipients of federal support during the Great Depression the citizens of Norvelt Pennsylvania stand out as model reminders of the vital importance of New Deal programs Hoping to transform their desperate situation the 250 families of this western Pennsylvania town worked with the federal government to envision a new kind of community that would raise standards of living through a cooperative lifestyle and enhanced civic engagement Their efforts won them a nearly mythic status among those familiar with Norvelt's history Hope in Hard Times explores the many transitions faced by those who undertook this experiment With the aid of the New Deal these residents who hailed from the hardworking and underserved class that Jacob Riis had called the other half a generation earlier created a middle class community that would become an exemplar of the success of such programs Despite this many current residents of Norvelt the children and grandchildren of the first

inhabitants oppose government intervention and support political candidates who advocate scrutinizing and even eliminating public programs Authors Timothy Kelly Margaret Power and Michael Cary examine this still unfolding narrative of transformation in one Pennsylvania town and the struggles and successes of its original residents against the backdrop of one of the most ambitious federal endeavors in U S history The Tenth Amendment and State Sovereignty Mark Robert Killenbeck,2002 Published under the auspices of Berkeley Public Policy Press T p verso *Historical Perspectives on Democracies and their Adversaries* Joost Augusteijn,Constant Hijzen,Mark Leon de Vries,2019-08-07 This book historicizes the debate over how democratic regimes deal with anti democratic groupings in society Democracies across the world increasingly find themselves under threat from enemies ranging from terrorists to parties and movements that undermine democratic institutions from within This compilation of essays provides the first historical exploration of how democracies have dealt with such anti democratic forces in their midst and how this impacted upon what democracy meant to all involved From its inception in the nineteenth century modern democratic politics has included fundamental debates over whether it is undemocratic and dangerous to ban parties with anti democratic objectives and whether democracies should defend themselves if necessary with violence against perceived anti democratic forces This volume shows that implicit conceptions of democracy and democratic repertoires become explicit fluid and contested throughout these confrontations not only within democratic parties but also among their adversaries Both sides have at times used force or limited the expression of ideas thus blurring the lines between who is democratic and who is not *Black Americans in the Roosevelt Era* John B. Kirby,1982 This original and vital study enriches our understanding of the New Deal the African American experience and liberal reform **Congressional Record** United States. Congress,1995 Perspective Charles Gaines,2006-12 Perspective is a story about the birth of a nation with divine purpose how it lost that perspective and how America can become a united and like minded people under God once again Christian Remember My Sacrifice Elizabeth Davey,Rodney Clark,2007-11-01 On the morning of July 27 1940 police arrested African American labor organizer Clinton Clark during a parishwide rally in Natchitoches Louisiana That day over 800 black farmers and plantation workers made their way to town to protest for fair payments for their crops and equal access to New Deal assistance programs Though those arrested with him were released after only three days Clinton remained in jail for three weeks without charges and faced a possible lynching News of Clark s captivity reached New Orleans labor organizers and spread to national civil liberties groups making him a public figure among civil rights organizations Recounting Clark s life in his own words Remember My Sacrifice is an exceptional first hand account of the lives of African Americans in rural Louisiana and of Clark s covert efforts to organize sharecroppers and farm workers during the Great Depression Born in 1903 Clark grew up in a sharecropping family in Pointe Coupee Parish Louisiana Like many of his counterparts Clark struggled to find work in the 1920s and in 1931 he moved to California with hopes of finding work Instead he was introduced to the Unemployed Benefits Council a Communist affiliated

relief organization For Clark the organization s mission of collective action coupled with respect and relief for the unemployed was the ideal political expression for the frustration he felt within the southern economy Upon returning to Louisiana in 1933 Clark used his newfound confidence to organize sugar plantation workers and sharecroppers on his own often hiding out in the woods to escape the persecution of landowners and town officials Known as the Black Ghost of Louisiana Clinton Clark worked to connect rural Louisiana with a larger southern farmers union movement an effort that culminated in the formation of the Louisiana Farmers Union in 1937 Helping small farmers and farm workers most of whom were black take advantage of President Franklin Roosevelt s agricultural benefit programs and form goods cooperatives that served to break down the tenant farmers reliance upon plantation commissaries Clark assisted Louisiana farmers in their search for an equitable income In 1942 Clinton Clark penned his autobiography at night while working at a trucking company in New Orleans and shortly afterwards he fled Louisiana for New York City In the years that followed Clark faced the FBI s Communist surveillance though his memoir suggests that Clark never wholeheartedly endorsed communism he simply wanted equality With an introduction and thorough annotations by Elizabeth Davey and Rodney Clark Clinton Clark s nephew Clark s unique narrative illuminates the relationships between labor and civil rights groups and their important work organizing against racial discrimination in the years before the modern civil rights movement *A World of Hope, a World of Fear* Mark L. Kleinman, 2000 Historian Kleinman juxtaposes the intellectual and professional lives of two the key figures in US history after World War II to explore a fatal division in American liberal thinking about domestic politics and international relations during and after the war Wallace who started in agriculture and served as vice president did not rule out a cooperative relationship with the Soviet Union Niebuhr an internationally respected protestant theologian and political commentator categorically rejected dealing with any communists at home or abroad He argues that Wallace s defeat in the 1942 campaign for president perpetuated the climate of fear that only melted during the Vietnam War Annotation copyrighted by Book News Inc Portland OR
