New Dimensions In Popular Culture:

Handbook of Research on Consumption, Media, and Popular Culture in the Global Age Ozgen, Ozlen, 2019-05-15
The mass production and diversification of media have accelerated the development of popular culture. This has started a new trend in consumerism of desiring new consumption objects and devaluing those consumption objects once acquired, thus creating a constant demand for new items. Pop culture now canalizes consumerism both with advertising and the marketing of consumerist lifestyles which are disseminated in the mass media. The *Handbook of Research on Consumption Media and Popular Culture in the Global Age* discusses interdisciplinary perspectives on media influence and consumer impacts in a globalizing world due to modern communication technology. Featuring research on topics such as consumer culture, communication ethics, and social media, this book is ideally designed for managers, marketers, researchers, academicians, and students.

Popular Culture in Asia Lorna Fitzsimmons, John A. Lent, 2013-05-07
Popular Culture in Asia consists of studies of film, music, architecture, television, and computer-mediated communication in China, Japan, South Korea, Taiwan, the Philippines, Malaysia, and Singapore, addressing three topics: urban modernities, modernity, celebrity, and fan culture, and memory and modernity.

The Routledge Companion to Religion and Popular Culture John C. Lyden, Eric Michael Mazur, 2015-03-27
Religion and popular culture is a fast-growing field that spans a variety of disciplines. This volume offers the first real survey of the field to date and provides a guide for the work of future scholars. It explores key issues of definition and of methodology, religious encounters with popular culture across media, material culture, and space, ranging from videogames and social networks to cooking and kitsch, architecture and national monuments, representations of religious traditions in the media, and popular culture including important non-Western spheres such as Bollywood. This Companion will serve as an enjoyable and informative resource for students and a stimulus to future scholarly work.

Popular Culture in the Middle East and North Africa Walid El Hamamsy, Mounira Soliman, 2013
This book explores the body and the production process of popular culture in and on the Middle East and North Africa, Turkey, and Iran in the first decade of the 21st century and up to the current historical moment. Essays consider gender, racial, political, and cultural issues in film, cartoons, music, dance, photo, tattoos, graphic novels, fiction, and advertisements. Contributors to the volume span an array of specializations ranging across literary, postcolonial, gender, media, and Middle Eastern studies and contextualize their views within a larger historical and political moment, analyzing the emergence of a popular expression in the Middle East and North Africa region in recent years and drawing conclusions pertaining to the direction of popular culture within a geopolitical context. The importance of this book lies in presenting a fresh perspective on popular culture, combining media that are not often combined and offering a topical examination of recent popular production aiming to counter stereotypical representations of Islamophobia and otherness by bringing together the perspectives of scholars from different cultural backgrounds and disciplines. The collection shows that popular culture can effect changes and alter perceptions and stereotypes, constituting an area where

people of different ethnicities genders and orientations can find common grounds for expression and connection

Literature and Mass Culture Leo Lowenthal, 2017-09-08 This first volume of the collected writings of sociologist Leo Lowenthal contains his classic theoretical and historical writings on the relationship of art to mass culture This book series presents Lowenthal's contributions to a theory of the role of communication in modern society This volume lays out the basis for a theory of mass culture Lowenthal demonstrates that the juxtaposition of a lowmass culture and a highesoteric culture did not originate in contemporary industrial bourgeois society but can be traced back to the Middle Ages and antiquity
