Families in Global and Multicultural Perspective Bron B Ingoldsby, Suzanna D Smith, 2006 Publisher description

Kinship and Gender Linda Stone, 2018-04-19 This book explores gender cross culturally through the framework of kinship It includes fifteen ethnographic case studies to give students a strong sense of the intricate interconnections between kinship and gender as a lived experience and among a variety of cultural groups

The House of the Mother Cynthia R. Chapman, 2016-01-01 This work reevaluates the biblical house of the father in light of the anthropological critique of the patrilineal model It uncovers and defines the contours of an underappreciated yet socially significant kinship unit in the Bible the house of the mother

[The Genius of Kinship](#) German Valentinovich Dziebel, 2007 Dziebel has doctorates in both history and anthropology and is currently both advisor to the Great Russian Encyclopedia and senior anthropologist at Crispin Porter

Bogusky advertising agency His extremely dense work is actually three books in one The first is a history of kinship studies from the early 19th century to the present The second is a comparative study of kinship terminology among non Indo European languages for which he has also prepared a data base published on the internet The third section highly controversial as he admits uses anthropology mitochondrial studies and linguistics to suggest that the out of Africa model of human origins may be in error and that the first humans actually came from the Americas and spread from there to the rest of the world **Kinship Matters** Fatemeh Ebtehaj, Bridget Lindley, Martin Richards, 2006-09-15 This book is the fifth in the Cambridge Socio Legal Group series and it concerns the evolving notions and practices of kinship in contemporary Britain and the interrelationship of kinship law and social policy Assembling contributions from scholars in a range of disciplines it examines social legal cultural and psychological questions related to kinship Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well being of children while increasing longevity and mobility together with lower birth rates and changes in our economic circumstances have led to a reconsideration of duties and responsibilities towards the care of elderly people In addition globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally Finally new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain

Primeval kinship Bernard Chapais, 2009-06-30 At some point in the course of evolution from a primeval social organization of early hominids all human societies past and present would emerge In this account of the dawn of human society Bernard Chapais shows that our knowledge about kinship and society in nonhuman primates supports and informs ideas first put forward by the distinguished social anthropologist Claude Lévi Strauss Chapais contends that only a few evolutionary steps were required to bridge the gap between the kinship structures of our closest relatives chimpanzees and bonobos and the human kinship configuration The pivotal event the author proposes was the evolution of sexual alliances Pair bonding transformed a social organization loosely based on kinship into one exhibiting the strong hold of kinship and affinity The implication is that the gap between chimpanzee societies and pre linguistic hominid societies is narrower than we might think Many books on kinship have been written by social anthropologists but Primeval Kinship is the first book dedicated to the evolutionary origins of human kinship And perhaps equally important it is the first book to suggest that the study of kinship and social organization can provide a link between social and biological anthropology *Kinship and Family in Ancient Egypt* Leire Olabarria, 2020-02-27 In this interdisciplinary study Leire Olabarria examines ancient Egyptian society through the notion of kinship Drawing on methods from archaeology and sociocultural anthropology she provides an emic characterisation of ancient kinship that relies on performative aspects of social interaction Olabarria uses memorial stelae of

the First Intermediate Period and the Middle Kingdom ca 2150 1650 BCE as her primary evidence Contextualising these monuments within their social and physical landscapes she proposes a dynamic way to explore kin groups through sources that have been considered static The volume offers three case studies of kin groups at the beginning peak and decline of their developmental cycles respectively They demonstrate how ancient Egyptian evidence can be used for cross cultural comparison of key anthropological topics such as group formation patronage and rites of passage
