New Directions In Psychological Anthropology:

New Directions in Psychological Anthropology Theodore Schwartz, Geoffrey M. White, Catherine A. Lutz, 1992 The field of psychological anthropology has changed a great deal since the 1940s and 1950s when it was often known as Culture and Personality Studies Rooted in psychoanalytic psychology its early practitioners sought to extend that psychology through the study of cross cultural variation in personality and child rearing practices Psychological anthropology has since developed in a number of new directions Tensions between individual experience and collective meanings remain as central to the field as they were fifty years ago but alongside fresh versions of the psychoanalytic approach other approaches to the study of cognition emotion the body and the very nature of subjectivity have been introduced And in the place of an earlier tendency to treat a culture as an undifferentiated whole psychological anthropology now recognizes the complex internal structure of cultures The contributors to this state of the art collection are all leading figures in contemporary psychological anthropology and they write about recent developments in the field Sections of the book discuss cognition developmental psychology biology psychiatry and psychoanalysis areas that have always been integral to psychological anthropology but which are now being transformed by new perspectives on the body meaning agency and communicative practice New Directions in Psychological Anthropology Theodore Schwartz, Geoffrey M. White, Catherine A. Lutz, 1993 New Directions in the Anthropology of Dreaming Jeannette Mageo, Robin E. Sheriff, 2020-10-08 This book presents new directions in contemporary anthropological dream research surveying recent theorizations of dreaming that are developing both in and outside of anthropology It incorporates new findings in neuroscience and philosophy of mind while demonstrating that dreams emerge from and comment on sociohistorical and cultural contexts The chapters are written by prominent anthropologists working at the intersection of culture and consciousness who conduct ethnographic research in a variety of settings around the world and reflect how dreaming is investigated by a range of informants in ever more diverse sites As well as theorizing the dream in light of current anthropological and psychological research the volume accounts for local dream theories and how they are situated within distinct cultural ontologies It considers dreams as a resource for investigating and understanding cultural change dreaming as a mode of thinking through contesting altering consolidating or escaping from identity and the nature of dream mentation In proposing new theoretical approaches to dreaming the editors situate the topic within the recent call for an anthropology of the night and illustrate how dreams offer insight into current debates within anthropology s mainstream This up to date book defines a twenty first century approach to culture and the dream that will be relevant to scholars from anthropology as well as other disciplines such as religious studies the neurosciences and psychology **The Routledge Companion to Contemporary Anthropology** Simon Coleman, Susan B. Intimate Enemies Kimberly Theidon, 2012-10-29 In the aftermath of a civil war former enemies are left living side by side and often the enemy is a son in law a godfather an old schoolmate or the community that lies just across the valley Though the internal conflict in Peru at the end of the twentieth century was incited and organized by insurgent Senderistas the violence and destruction were carried out not only by Peruvian armed forces but

also by civilians In the wake of war any given Peruvian community may consist of ex Senderistas current sympathizers widows orphans army veterans a volatile social landscape These survivors though fully aware of the potential danger posed by their neighbors must nonetheless endeavor to live and labor alongside their intimate enemies Drawing on years of research with communities in the highlands of Ayacucho Kimberly Theidon explores how Peruvians are rebuilding both individual lives and collective existence following twenty years of armed conflict Intimate Enemies recounts the stories and dialogues of Peruvian peasants and Theidon s own experiences to encompass the broad and varied range of conciliatory practices customary law before and after the war the practice of arrepentimiento publicly confessing one s actions and requesting pardon from one s peers a differentiation between forgiveness and reconciliation and the importance of storytelling to make sense of the past and recreate moral order The micropolitics of reconciliation in these communities present an example of postwar coexistence that deeply complicates the way we understand transitional justice moral sensibilities and social life in the aftermath of war Any effort to understand postconflict reconstruction must be attuned to devastation as well as to human tenacity for life
