New Glass Review Vol 14:

New Glass Review ,2002 *Great Britain and the German Trade Rivalry* Ross J. S. Hoffman,2019-06-26 Originally published in 1933 this volume covers 3 features of British history in the 40 years prior to the First World War the inroad made by commercial and industrial Germany on the far flung business empire of Great Britain the British national reaction to this German rivalry and the influence of that rivalry upon the shaping of British policy toward Germany Journal of Glass Studies ,2009 **The Bookseller** ,1862 Official organ of the book trade of the United Kingdom The A to Z of Australian Radio and Television Albert Moran,Chris Keating,2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television their media moguls have frequently bought up foreign companies and people around the world have been able to enjoy such Australian productions as *The Flying Doctors* *Neighbours* and *Kath and Kim* The origins early development and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene *The A to Z of Australian Radio and Television* provides essential facts and information concerning the Australian radio and television industry This is accomplished through the use of a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on directors producers writers actors television and radio series and television and radio stations

Population in History D.E.C. Eversley,2017-07-12 This large scale comparative endeavor complete in two volumes reflects increasing concern with the population factor in economic and social change worldwide Demographers on their side have been focusing on history In response to this *Population in History* represents the work of two practitioners that have begun to work together using their combined approaches in an attempt to assess and account for population growth experienced by the West since the seventeenth century There is a long record of interest in the history of population But the interest now displayed is likely to be both more persistent and far more fruitful in its consequences New studies have been initiated in many countries And because the studies are more informed and systematic than many of those of earlier periods they are already provoking the further spread of research A much more positive part is now also being played by national and international associations of historians and demographers It is not unlikely that within the next fifteen or twenty years the main outlines of population change in the seventeenth and eighteenth centuries will be firmly established for much of Europe Previous research has tended to appear in specialist journals and academic publications This volume is intended to provide a more easily accessible publication It has been thought appropriate to include some earlier work both because of its intrinsic interest and because it provided the background and part of the stimulus to the later research Of the twenty seven contributions to this outstanding volume seven are unabridged reprints of earlier work the remaining contributions are either entirely new or represent substantial revisions of work published elsewhere **Journal of Industrial and Engineering Chemistry** ,1922 *The Journal of Industrial and Engineering Chemistry* ,1918 *Publisher and Bookseller* ,1862 Vols for
