Аннотация. Проблема создания киборгов, замещения частей тела человека высокотехнологичными аналогами в современном обществе, в условиях активного развития информационных и биотехнологических технологий привлекает все больше внимания исследователей как точных, естественных, так и гуманитарных и междисциплинарных наук. Образ киборга формируется, с одной стороны, под влиянием научных разработок в области создания первых киберпроектов, форсайт-исследований по киборгизации социума. С другой стороны, образ киборга формирует современная массовая культура, которая характеризуется широтой охвата аудитории и переходом в новые электронные формы (E-Culture). На основе философско-антропологического аналитического подхода представлен обзор современных исследований, связанных с пониманием сущности киборгов, их роли в обществе будущего, а также анализ социогуманитарных аспектов процесса киборгизации общества. Развитие кибертехнологий анализируется с позиции наиболее актуальных вопросов их последующего внедрения: трансформации гендера, демографического перехода, иммортализма и др. Особое внимание уделено изучению образа киборга в современной электронной культуре: от киноискусства до массовых компьютерных игр. Выявлена динамика образа киборга в продукции массовой культуры, его постепенная легитимация для сознания потребителя, что приводит к смещению онтологических границ существования человека, постановке новых экзистенциальных проблем постличности.

Ключевые слова: киборг, киборгизация, техночеловек, постчеловек, массовая культура, социогуманитарные исследования.

* Проект «Виртуализация современной культуры и "жизненного мира" человека: социокультурный, аксиологический, антропологический анализ» выполнен при поддержке гранта РГНФ № 14-03-00289а.
