Democracy and Political Change in Sub-Saharan Africa John A. Wiseman, 2002-11-01 Since the end of the 1980s the most important political development in Sub Saharan Africa has been the movement towards democracy This is something that has affected nearly all the countries in the region in varying degrees This book provides the reader with a set of case studies covering a diverse range of African states in order to identify the major causes of recent change the progress made so far and what the prospects for the future might be While changes in the global political situation has been important the greatest impetus towards democracy has been the result on internal factors For all the states covered the specific domestic social economic and political conditions are seen as vitally important Politics and Change in Developing Countries Colin Leys, 2011-02-03 This 1969 work gathers together essays on Third World development by nine social scientists with diverse academic interests These contributions are united by a relative uncertainty in relation to development derived from the contemporary critical reappraisal of the area together with a need to create fresh methodologies for the advancement of their respective fields Political Topographies of the African State Catherine Boone, 2003-10-27 This study brings Africa into the mainstream of studies of state formation in agrarian societies Territorial integration is the challenge institutional linkages and political deals that bind center and periphery are the solutions In African countries rulers at the center are forced to bargain with regional elites to establish stable mechanisms of rule and taxation Variation in regional forms of social organization make for differences in the interests and political strength of regional leaders who seek to maintain or enhance their power vis a vis their followers and subjects and also vis a vis the center Political Parties and National Integration in Tropical Africa James S. Coleman, Carl G. Rosberg, 2023-04-28 The essays in this book focus attention on the role of political groups in the new functioning and development of the new African societies and the political systems of which they are a part The authors all recognized authorities have sought to identify and compare the manifestations of the general tendency among the new states of Tropical Africa toward the establishment and consolidation of one party political systems and to examine in the light of this general trend the different dimensions of the problem of integration This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1964 *Political Parties and National Integration in Tropical Africa* , *Political Parties and National Integration in Tropical Africa* James Smoot Coleman, Carl G. Wines, Martin Kilson, 1867 **Gender and Power in Sierra Leone** L. Day, 2012-01-02 This book addresses the gendered political authority in Sierra Leone a relatively unknown topic and looks at the part it plays in women's history political history political transformation in Africa and global women's political leadership **Colonialism and Change** Maxwell Owusu, 2011-07-22 No detailed description available for Colonialism and Change Analyzing Pol Change James R Scarritt, 2019-04-11 This book addresses political instability and the role of the military in unstable politics as well as to class formation class conflict and prolonged economic dependency in Africa It uses a comprehensive theoretical approach based on systems functionalist theories in solving these issues *Fanon* Jinadu, 2021-12-24 First published in 1986 Fanon In Search of the African Revolution is different from other books on Fanon in that it approaches him as both a political philosopher and political sociologist of the African experience It suggests that Fanon's political writings be viewed in terms of his concern with how relations are structured in colonial and post colonial Africa and the implications of those structural arrangements for political conflict in Africa Fanon's attempt to explain the pathologies and contradictions of African politics in terms of class and the historical processes that influence and constrain class political behavior is provocative and insightful But the moral dimension that informs Fanon's theoretical perspectives is no less important if only because it attests to his strong advocacy of the need for revolutionary change as a condition for the restructuring of African political systems

Corruption and Development in African Nations Suma Pothuvaal, 2025-01-03 Corruption and Development in African Nations explores the deep rooted causes of corruption in Africa going beyond the typical portrayal of African countries as corrupt We delve into the African political economy to uncover the severity of governance issues and their impact on the domestic economy and the region's role in the international economic order Our book combines economic analysis and political theory to provide a comprehensive understanding of political and economic corruption in Sub Saharan Africa Instead of merely focusing on increasing vigilance coercion and democratic processes we offer insightful analysis to grasp the foundational issues contributing to corruption This book is essential for anyone seeking to understand the complexities of governance and corruption in African nations providing a nuanced perspective on the challenges and potential solutions for development **The African State in Transition** Zaki Ergas, 1987-10-20 In the first twenty five years of African independence the behaviour of the African state elites has not been with a few notable exceptions conducive to self sustained development What are the reasons for this sorry state of affairs What can be done to reverse that unfortunate trend These are the two overarching questions with which this book attempts to grapple Political Development and the New Realism in Sub-Saharan Africa David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub Saharan

African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression
