On South Bank: The Production of Public Space Alasdair J.H. Jones, 2016-05-23 Tensions over the production of urban public space came to the fore in summer 2013 with mass protests in Turkey sparked by a plan to redevelop Taksim Gezi Park Istanbul In London concomitant proposals to refurbish an area of the South Bank historically

used by skateboarders were similarly met by staunch opposition Through an in depth ethnographic examination of London s South Bank this book explores multiple dimensions of the production of urban public space Drawing on user accounts of the significance of public space as well as observations of how the South Bank is practised on a daily basis it argues that public space is valued not only for its essential material characteristics but also for the productive potential that these characteristics if properly managed afford on a daily basis At a time when policy makers urban planners and law enforcement authorities simultaneously grapple with pressures to deal with social problems such as street drinking vandalism and skateboarding and accusations that new modes of urban planning and civic management infringe upon civil liberties and dilute the publicity of public space this book offers an insightful account of the daily exigencies of public spaces In so doing it questions the utility of the public private binary for our understanding both of common urban space and of different sets of social practices and points towards the need to be attentive to productive processes in how we understand and experience urban open space as public

Constructing Singapore Public Space Limin Hee,2016-09-21 This book presents possible alternatives and interpretations to the well established notion in the mostly western discourse on public space The discourse on public space as understood in the democratic rationalist tradition when applied to the Singaporean public space would offer much criticism but would not be adequate in identifying alternative processes that allow for transformative potentials in public space Thus said the objectives of this book are 1 To develop a conceptual frame of reference to construct the discourse on Singapore public space 2 To form a preliminary model of Singapore public space through analyzing case studies 3 To understand the modes methods of production and representation of these public spaces within the rapidly changing urban context 4 To situate these constructions of public space and its possible trajectories within the larger discourse on public space and to examine the viability of such a construction and interpretive model of public space

Privately Owned Public Space Jerold S. Kayden,The New York City Department of City Planning,The Municipal Art Society of New York,2000-11-10 Hailed by the Wall Street Journal as a juicy little time bomb of a book Privately Owned Public Space The New York City Experience examines for the first time New York City s 39 year mixed experience with the production of more than 500 plazas parks and atriums located on private property yet by law accessible to and usable by the public Until now comprehensive systematic knowledge about this vast collection of public spaces has not existed either for experts or members of the public To remedy this gap Harvard University professor Jerold S Kayden The

New York City Department of City Planning and The Municipal Art Society of New York have joined forces to research and write *Privately Owned Public Space: The New York City Experience*. Through words, photographs, scaled site plans, maps, and analysis of newly assembled data, they examine the history, law, design, and use of the city's privately owned public spaces. Each of the more than 500 spaces is individually discussed to provide far-reaching comparative information about this unique category of public space. In reading this book, designers, planners, lawyers, and academics will gain greater understanding about the possibilities and problems inherent in the design, management, and enforcement of privately owned public space. Public officials, private owners, and civic group representatives will learn more about their roles in ensuring public access and vitality of such spaces. Individuals will discover where New York City's public spaces are located and what amenities they offer.
