**Public Opinion and American Foreign Policy** Ole R. Holsti, 1996 Explores the role of public opinion in the conduct of foreign relations     Public Opinion and Foreign Policy Roderick McGirr Wright, 1958     *American Foreign Relations Reconsidered* Gordon Martel, 2002-11 Brings together 12 scholars of US foreign relations Each contributor provides a concise summary of an important theme in US affairs since the Spanish American War US policy process economic interests relations with the Third World and the nuclear arms race have been highlighted     The Making of US Foreign Policy John Dumbrell, David M. Paterson Professor of History University of Connecticut, 1988-03-24 In this provocative new book the distinguished diplomatic historian Thomas G Paterson explores why and how Americans have perceived and exaggerated the Communist threat in the last half century Telling the story through rich analysis and substantial research in private papers government archives oral histories contemporary writings and scholarly works Paterson explains the origins and evolution of United States global intervention In penetrating essays on the ideas and programs of Harry S Truman George F Kennan Dwight D Eisenhower John Foster Dulles John F Kennedy Richard M Nixon Henry A Kissinger and Ronald Reagan as well as on the views of dissenters from the prevailing Cold War mentality Paterson reveals the tenacity and momentum of American thinking about threats from abroad Paterson

offers a thorough review of postwar American attitudes toward totalitarianism the causes of international conflict and foreign aid and he then demonstrates how Truman acted upon these views launched the containment doctrine and exercised American power in both Europe and Asia A fresh look at Eisenhower's policy in the Middle East explains how the United States became a major player in that volatile region Paterson also presents an incisive critique of Kennedy's foreign policy describing an administration propelled by lessons from Truman's era an assertive can do style and a grandiose notion of America's nation building responsibilities in the Third World Arrogance ignorance and impatience Paterson argues combined with familiar exaggerations of Soviet capabilities and intentions to produce a rash of crises from the Bay of Pigs and missile crisis in Cuba to the war in Vietnam Other chapters study the flawed record of 1970s detente CIA covert actions and the failure of congressional oversight from the 1940s to the present and Reagan's rewriting of the history of the Vietnam War In the last chapter Paterson demolishes the argument that the Vietnam War could have been won and probes the analogy between Vietnam and Central America in the 1980s Americans did not invent the Communist threat Paterson contends but they have certainly exaggerated it nurturing a trenchant anti communism that has had a devastating effect on international relations and American institutions An important backdrop to recent foreign policy Meeting the Communist Threat combines extensive scholarship and perceptive analysis to provide a vivid account of Cold War policy in America *Press, Radio and Film in West Germany, 1945-1953* Henry Payne Pilgert, 1953 *Trade and the American Dream* Susan Aaronson, 2014-07-11 Every hour of every day Americans see smell taste or hear goods and services traded between the United States and other nations Trade issues are front page news but most Americans know little about the potential impact of global economic interdependence on their jobs standard of living and quality of life In *Trade and the American Dream* Susan Aaronson highlights a previously ignored dimension of the United States trade policy public understanding Focusing on the debate over the three mechanisms designed to govern world trade the International Trade Organization ITO the General Agreement on Tariffs and Trade GATT and the World Trade Organization WTO she examines how policymakers communicate and how the public comprehends trade policy Since 1947 the U S has led global efforts to free trade and support for freer trade policies and for an international organization to govern world trade has become dogma among policymakers business leaders and economists Relying on archival research polling data public documents interviews and Congressional testimony Aaronson shows that the public also matters in trade policy decisions If concerns about the implications of economic interdependence remain unaddressed American trade policy and an international trade organization are vulnerable to a surge of populism and isolationism While Americans became addicted to imported cars radios computers and appliances a growing number saw the costs of freer trade policies in the nation's slums poverty statistics crime rate and unemployment figures Concerns about freer trade policies reached a crescendo in the mid 1990s especially as Congress debated U S participation in the North American Free Trade Agreement NAFTA Aaronson suggests ways to create greater

public understanding for the GATT WTO and international trade If national trade policy is to play in Peoria Americans must first understand it     After the Cold War: Domestic Factors and U.S.-China Relations R.J. Ross,2016-07-01 As relations between the United States and China move into a period of intense activity and sensitivity this timely book addresses the impact of domestic factors in both countries on their post Cold War post Tiananmen relations The contributors examine the issue from a number of distinct perspectives the increased impact of domestic factors in both countries due to changing strategic circumstances the politics of China policy in the United States with emphasis on the role of interest groups vis a vis Congress the media and other domestic institutions the importance of domestic factors in U S China economic conflicts the combined impact of domestic factors in both China and the United States on the most important conflict of interest in U S China relations the Taiwan issue     The Media and Sino-American Rapprochement, 1963-1972 Guolin Yi,2020-11-11 Winner of the ACPSS Research Award An important new cultural study of the Cold War Guolin Yi s *The Media and Sino American Rapprochement 1963 1972* analyzes how the media in both countries shaped public perceptions of the changing relations between China and the United States in the decade prior to Richard Nixon s visit to Beijing This book offers the first systematic study of Cankao Xiaoxi Reference News an internal Chinese newspaper that carried relatively objective stories the Xinhua News Agency translated from world news media for circulation among Communist cadres As the main channel for the cadres to learn about the outside world this newspaper provides a window into China s evolving foreign policy including the reception of signals from the Nixon administration Yi compares this internal communications channel with the public accounts contained in the more widely circulated newspaper People s Daily a chief propaganda outlet of the Chinese Communist Party CCP directed at its own people and China watchers all over the world A third level of communication emerges in classified CCP instructions and government documents By approaching the Chinese communication system on three levels internal public and classified Yi s analysis demonstrates how people at different positions in the political hierarchy accessed varying types of information allowing him to chart the development of Beijing s approach to the U S government In a corresponding analysis of the defining features of American reporting on China Yi considers the impact of government media relationships in the United States during the Cold War Alongside prominent magazines and newspapers particularly the New York Times and the Washington Post in their differing coverage of key events Yi discusses television networks which proved vital for promoting the success of Ping Pong Diplomacy and the impact of Nixon s visit in 1972 With its comparative study of news outlets in the two countries *The Media and Sino American Rapprochement 1963 1972* presents a thorough and comprehensive perspective on the role of the media in influencing domestic Chinese and American public opinion during a critical decade     **Bourgeois Radicals** Carol Anderson,2015 *Bourgeois Radicals* explores the NAACP s key role in the liberation of Africans and Asians across the globe even as it fought Jim Crow on the home front during the long civil rights movement In the eyes of the NAACP s leaders the way to create a stable international system stave off

communism in Africa and Asia and prevent capitalist exploitation was to embed human rights with its economic and cultural protections in the transformation of colonies into nations Indeed the NAACP aided in the liberation struggles of multiple African and Asian countries within the limited ideological space of the Second Red Scare However its vision of a third way to democracy and nationhood for the hundreds of millions in Asia and Africa was only partially realized due to a toxic combination of the Cold War Jim Crow and die hard imperialism Bourgeois Radicals examines the toll that internationalism took on the organization and illuminates the linkages between the struggle for human rights and the fight for colonial independence

*The Oxford Handbook of Foreign Policy Analysis* Juliet Kaarbo, Cameron Theis, 2024-01-17 The Oxford Handbook of Foreign Policy Analysis repositions the subfield of Foreign Policy Analysis FPA to a central analytic location within the study of International Relations IR Over the last twenty years IR has seen a cross theoretical turn toward incorporating domestic politics decision making agency practices and subjectivity the staples of the FPA subfield This turn however is underdeveloped theoretically empirically and methodologically To reconnect FPA and IR research this handbook links FPA to other theoretical traditions in IR takes FPA to a wider range of state and non state actors and connects FPA to significant policy challenges and debates By advancing FPA along these trajectories the handbook directly addresses enduring criticisms of FPA including that it is isolated within IR it is state centric its policy relevance is not always clear and its theoretical foundations and methodological techniques are stale The Oxford Handbook of Foreign Policy Analysis provides an inclusive and forward looking assessment of this subfield Edited and written by a team of world class scholars and with a preface by Margaret Hermann and Stephen Walker the handbook sets the agenda for future research in FPA and in IR The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal's original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from

different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

Börzel,Thomas Risse,Stephanie B. Anderson,Jean A. Garrison,2024-10-29 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations This book explores the deep contestations of the liberal script in the contemporary United States from a variety of perspectives US democracy today is in crisis because of a profound ideological and affective polarization The chapters in this volume show that Donald Trump s grip on the Republican Party is a symptom and a catalyst but not the cause of the contemporary contestations of the liberal script in the US To discern their major drivers from a longue dur e perspective each chapter takes a step back and asks three main questions 1 How can we best describe the current contestations of the liberal script in the US exploring the extent to which the US is unique in comparison to other liberal democracies facing similar contestations 2 What are the main drivers and root causes that explain the current contestations and the crisis of American democracy they may precipitate 3 What are the likely consequences for the future of American democracy The conclusions do not lead us to expect a return to the norm of internal contestations of the liberal script that are common in liberal democracies and have characterized the US throughout its history Political economic and cultural polarization is by now deeply entrenched in American society and is eroding mutual toleration as the basis of American democracy In other words the resilience of US liberal democracy is at stake It is unlikely that we will see the US liberal script bounce back in the near future This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script SCRIPTS which analyzes the contemporary controversies about liberal ideas institutions and practices on the national and international level from a historical global and comparative perspective It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions Operating since 2019 and funded by the German Research Foundation DFG SCRIPTS unites eight major Berlin based research institutions Freie Universit t Berlin the Humboldt Universit t zu Berlin the Berlin Social Science Center WZB the Hertie School the German Institute for Economic Research DIW the Berlin branch of the German Institute of Global and Area Studies GIGA the Centre for East European and International Studies ZOIS and the Leibniz Zentrum Moderner Orient ZMO      **Constructing the Monolith** Marc J. Selverstone,2009 As the Cold War took shape during the late 1940s policymakers in the United States and Great Britain displayed a marked tendency to regard international communism as a monolithic conspiratorial movement The image of a Communist monolith distilled the messy realities of international relations into a neat comprehensible formula Its lesson was that all communists regardless of their native land or political program were essentially tools of the Kremlin Marc Selverstone recreates the manner in which the monolith emerged as a perpetual framework on both sides of the Atlantic

Though more pervasive and millennial in its American guise this understanding also informed conceptions of international communism in its close ally Great Britain casting the Kremlin's challenge as but one more in a long line of threats to freedom. This illuminating and important book not only explains the Cold War mindset that determined global policy for much of the twentieth century but also reveals how the search to define a foreign threat can shape the ways in which that threat is actually met. *Perceptions of China and White House Decision-Making, 1941-1963* Adam S.R. Bartley, 2019-11-26. This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China. Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model, Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles. The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior, interests and attitudes only superficially and in some cases not at all. Misinformation and misperception were the natural outcomes. Reinforced by the politics of McCarthyism at home, intellectual debate on China policy was squashed, parochialism and nuance were shunned and information was closed off. Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration. The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored, overlooked and distorted. Offering new insights into the China policies of consecutive administrations from 1941 to 1963, this volume will be of great interest to scholars and students of American foreign policy, security studies and international relations.
