Handbook of Engineering Hydrology (Three-Volume Set) Saeid Eslamian, 2018-10-03 While most books examine only the classical aspects of hydrology this three volume set covers multiple aspects of hydrology and includes contributions from experts from more than 30 countries It examines new approaches addresses growing concerns about hydrological and ecological connectivity and considers the worldwide impact of climate change *A Procedural Framework for Transboundary Water Management in the Mekong River Basin* Qi Gao, 2014-03-13 In *A Procedural Framework for Transboundary Water Management in the Mekong River Basin* Shared Mekong for a Common Future Qi Gao explores procedural implications of integrated water resources management and its application in the Mekong River Basin As a problem based study enlightening conclusions are made based on the increasingly polycentric nature of transboundary cooperation in the Mekong region The procedural requirements in the Mekong context both the ideal and practical scenarios are considered combined with selected case studies Qi Gao convincingly asserts the necessity to enhance decision making processes and suggests procedural legal mechanisms to institutionalize sustainability concepts in transboundary cooperation

Handbook of Research on Hydroinformatics: Technologies, Theories and Applications Gasmelseid, Tagelsir Mohamed, 2010-07-31 This book provides relevant theoretical frameworks and empirical research findings in the area hydroinformatics to assist professionals to improve their understanding of the development and use of decision support tools to support decision making and integrated water management at different organizational levels and domains Provided by publisher A Bridge over Troubled Waters Helene Ruiz Fabri, Erik Franckx, Marco Benatar, Tamar Meshel, 2020-10-12 *A Bridge Over Troubled Waters* Dispute Resolution in the Law of International Watercourses and the Law of the Sea takes stock of the progress made thus far in the resolution of disputes concerning international watercourses and the oceans in addition to considering their future paths Written by renowned academics and practitioners the chapters of this edited collection enable the reader to reflect on the achievements and setbacks that characterize each field and their potential for cross fertilization Four major themes are explored the shifting boundaries of traditional methods of dispute settlement the contributions made by relevant organizations to dispute settlement the interplay between substantive and procedural rules and case studies on dispute resolution in the Nile and the Arctic Water for the Americas Alberto Garrido, Mordechai Shechter, 2014-08-07 The chapters in this volume are peer reviewed editions of the papers presented at the 7th meeting of

the Rosenberg International Forum on Water Policy which was held in Buenos Aires Argentina on November 15 17 2010 The theme for Forum VII was Water for the Americas Challenges and Opportunities This Forum was unique in examining the water problems of the Americas and identifying water management experience gleaned in other parts of the world that might be useful in addressing the problems of the Americas The sessions illustrated how the water problems of the Americas are common problems differing only in degree from basin to basin There was unanimity among the participants about the need for all inhabitants of the Americas to work together to ensure that everyone has access to adequate quantities of healthy water supplies and to appropriate sanitation services This volume s approach is to identify different responses and policies that address common issues and learn from contrasts and experiences The value and potential that this approach affords is that it provides critical judgments about what has worked well and what needs to be done to gain a better future for the Americas water resources and society Some issues covered in the volume are so pressing and urgent chief among them is serving the unserved that any delays putting out new facilities in many a rural areas of Central America may cost lives and reduce the outlook for children Additionally the volume makes clear that the outlook for the poorest and the future of hundreds of growing cities are threatened by climate change This book looks into the future by analyzing present and relevant data and gains insight from the different developmental stages of the hemisphere

The Community of Interest Approach in International Water Law Julie Gjørtz Howden, 2020-06-02 In The Community of Interest Approach in International Water Law Julie Gj rtz Howden identifies the normative elements of the community of interest approach COIA in international water law and demonstrates how the approach can provide a legal framework for common management of international watercourses Through analyses of various features of international watercourse cooperation and common management the book determines the main principles and the underlying values of the COIA and discusses how the approach contributes to the development of international water law Although the COIA is one of the central theories of international water law very few analytical accounts of its legal features exist Through The Community of Interest Approach in International Water Law Howden offers a new and fresh approach to international water law that pulls together questions of holistic management State sovereignty public participation and river basin organisations into the analyses of the COIA and its relevance for managing transboundary watercourses today

Hydropolitical Vulnerability and Resilience Along International Waters ,2005 In Africa most major rivers freshwater lakes and aquifers are shared by two or more countries These nations are becoming increasingly vulnerable to conflict and their vulnerabilities are made more acute by climatic variations in precipitation increasing urbanization industrialization and environmental degradation The concept of resilience and vulnerability as it relates to water resources is tackled in this report within the framework of sustainability and relates to the ability of the human and bio physical systems to adapt to change

River Basin Organizations in Water Diplomacy Anoulak Kittikhoun, Susanne Schmeier, 2020-11-19 Will tensions and disputes among states sharing international water

courses and lakes turn into active conflicts Addressing this question the book shows that these concerns are more prominent due to the locations and underlying political dynamics of some of these large rivers and the strategic interests of major powers Written by a combination of leading practitioners and academics this book shows that states are more prone to cooperate and manage their transboundary issues over the use of their common water resources through peaceful means and the key institutions they employ are international river basin organizations RBOs Far from being mere technical institutions RBOs are key mechanisms of water diplomacy with capacity and effectiveness varying on four key interrelated factors their legal and institutional development and the influence of their technical and strategic resources The basins analyzed span all continents from both developed and developing basins including the Columbia Great Lakes Colorado Senegal Niger Nile Congo Jordan Helmand Aral Sea Mekong Danube and Rhine Contributing to the academic discourse on transboundary water management and water conflict and cooperation the book provides insights to policy makers on which water diplomacy engagements can be successful the strengths to build on and the pitfalls to avoid so that shared water resources are managed in a cooperative sustainable and stable way The Oxford Handbook of Water Politics and Policy Ken Conca,Erika

International Law: A Study of Environmental Impact Assessments Viviane Meunier-Rubel,2022-09-12 Environmental Impact Assessment EIA requirements are quasi universal Praised as the core of the international legal response to ensure environmental protection this procedure is an information tool for better public decision making which can contribute to empowering individuals and civic groups Based on the historical background of the relevant norms and on case studies

Interstitial Law Making in International Law A Study of Environmental Impact Assessments verifies whether the role of procedure in secreting substantive law may be fulfilled in the distinctive legal system of public international law while appraising how EIA requirements have been conceived and implemented as regards encouraging all international actors to behave in an environmentally conscious way in a world of heterogeneous political regimes This book is based on the author's award winning doctoral dissertation which received the Yale Law School's Ambrose Gherini Prize for best paper in the field of international law 2018

The Politics of Water in Africa Inga M. Jacobs, 2012-11-02 Water resources and related issues are of great significance in 21st century politics In Africa for example hydropolitics affect politics and policymaking at the local national and international levels To investigate water politics this unique work focuses on the issue transboundary water governance in Southern and Eastern Africa Based on extensive field research it offers a comparative study of the Orange Senqu and Nile basins in Africa arguing that both causal and behavioral factors such as localization and trust building drive the multi leveled development of cooperative management norms and foster the creation of regional communities of interest The book combines theory analysis and fieldwork within the framework of Constructivism as well as a wide range of examples to identify and analyze the nature of norms in hydropolitics By doing so it will help shape the debate on how water conflict and cooperative governance should evolve and will interest anyone studying African politics hydropolitics and issues of development

The UN Watercourses Convention in Force Flavia Rocha Loures, Alistair Rieu-Clarke, 2013-09-11 At the UN General Assembly in 1997 an overwhelming majority of States voted for the adoption of the United Nations Convention on the Law of the Non Navigational Uses of International Watercourses a global overarching framework governing the rights and duties of States sharing freshwater systems Globally there are 263 internationally shared watersheds which drain the territories of 145 countries and represent more than forty percent of the Earth's land surface Hence inter State cooperation towards the sustainable management of transboundary water supplies in accordance with applicable international legal instruments is a topic of crucial importance especially in the context of the current global water crisis This volume provides an assessment of the role and relevance of the UN Watercourses Convention and describes and evaluates its entry into force as a key component of transboundary water governance To date the Convention still requires further contracting States before it can enter into force The authors describe the drafting and negotiation of the Convention and its relationship to other multilateral environmental agreements A series of case studies assess the role of the Convention at various levels regional European Union East Africa West Africa Central Asia Central America and South America river basin e.g. the Mekong and Congo and national e.g. Ethiopia and Mexico The book concludes by proposing how future implementation might further strengthen international cooperation in the management of water resources to promote biodiversity conservation as well as sustainable and equitable use

Fresh Water in International Law Laurence Boisson de Chazournes, 2013-09-19 Fresh water is an environmental economic social and cultural commodity This book provides a

thorough assessment of its protection management and uses in international law It explores the international regional and national regulatory frameworks that make up the international legal regime regulating fresh water The World Bank Policy for Projects on International Waterways Salman M. A. Salman, 2009 This book deals with the evolution and context of the Bank policy for projects on international waterways It starts with a brief description of how the Bank faced the challenges stemming from such projects and the different approaches deliberated by the Bank that led to the issuance of the first policy in 1956 The Book then reviews the implementation experience and analyzes the principles and procedures as well as the main features of each of the policies issued in 1956 1965 and 1985 The principles of international water law prevailing at each stage of the policy updates are examined and **In Search of Legitimacy** Ingolfur Blühdorn, 2009-07-22 In European societies social differentiation value pluralism and international integration have brought about a condition of previously unknown complexity Citizens expectations regarding political participation and the legitimization of government policy are rising yet the capacities for social integration and political consensus formation may be in decline This volume investigates how political actors and institutions in established European democracies are seeing to manage the condition of complexity and how this condition reconfigures the foundations of democratic politics From the Contents Legitimacy Crises Efficiency Gaps Democratic Deficits Efficiency versus Democracy Conceptual Reconciliation of a Troubled Relationship Citizens Expectations Is what matters only what works Re engaging Citizens Institutional Responses to Political Disengagement Informal Government Delegated Authority Legitimizing Independent Regulatory Agencies Delegation to the EU The Open Method of Co ordination OMC and The European Employment Strategy Committee Governance in EU Agricultural Policy Efficiency versus Legitimacy The Governance of Technology Does citizen involvement improve the quality legitimacy and implementability of environmental policy The Allocation of Health Care The Post democratic Turn Complexity and the Reconfiguration of Democratic Politics The Principle of Integration in International Watercourse Cooperation Regimes Pol Pallàs Secall, 2025-06-19 The principle of integration is the backbone of sustainable development yet its practical application remains elusive How can States integrate the economic social and environmental dimensions in the governance of common goods This book seeks to address this question by examining a particularly sensitive domain of cooperation the international watercourses From the Mekong to the Senegal River and from the Great Lakes to the Danube it analyses the legal and institutional instruments of nine international watercourse cooperation regimes to determine how the principle of integration is put into practice This book finds that there are several instruments underutilised or entirely unused offering potential opportunities for improvement *International Watercourses Law and Multilateral Environmental Agreements* Yang Liu, 2024-02-06 This book anchors its arguments in Article 20 of the Watercourses Convention and explores consistencies and inconsistencies in parallel definitions substantive and procedural obligations and institutional arrangements in IWL and the Ramsar and Biodiversity Conventions with respect to the protection and preservation of

ecosystems of shared inland waters Dr Yang Liu argues that the all around informed and integrated application of IWL and MEAs is essential for the effective protection and preservation of shared inland water ecosystems However the degree of cross fertilization of parallel provisions should be examined on a case by case basis in light of the legal analytical framework deployed in this study
