National Perspectives on the Development of Public Relations Other Voices series is the first to offer an authentic world wide view of the history of public relations It will feature six books five of which will cover continental and regional groups This first book in the series focuses on Asia and Australasia *Professionalizing Public Relations* Kate Fitch, 2016-07-29 This groundbreaking study offers new insights into public relations history with a focus on the changing relationship between women and public relations the institutionalization of public relations education and the significance of globalization in Australia in the second half of the twentieth century Drawing on archival and interview research it reveals how the industry's professionalization led to the development of an occupational identity along national and gendered lines It also challenges common misconceptions around the origins of public relations and women's early contributions and careers Adopting a critical approach Professionalizing public relations avoids corporatist perspectives on the historical development of public relations by focusing on the processes of professionalization and their significance for gender and education and by situating this study in a broader global context The findings reveal dynamic and contested conceptualizations of public relations knowledge and expertise and the significance of historical processes for contemporary understandings of the industry

Public Relations Research Ansgar Zerfaß, A. A. van Ruler, Krishnamurthy Sriramesh, 2008-05-08 Introduction Sriramesh Van Ruler Zerfaß Krishnamurthy Sriramesh Betteke van Ruler Ansgar Zerfaß One could make a reasonable argument that public relations is an ancient practice going back millennia although it has been popularly perceived as a 20th century phenomenon Scholarship in public relations however is more recent in origin with a history of less than four decades During

these formative years the body of knowledge has expanded significantly which is laudable. However, there is potential for growth and improvement in many areas of the public relations literature. Over the decades, among other things, public relations scholarship has largely remained parochial to specific regions such as the United States, the United Kingdom, Latin America, German-speaking Europe, etc., as evidenced in the bibliographic references of many essays in this volume itself, where authors predominantly cite work from their own regions. This is often necessitated by linguistic differences with only English serving as the universal language that helps permeate knowledge through most regions. Pedagogical and methodological factors also have played a role in the regionalization of the body of knowledge. However, we believe that knowledge flows most when it is shared across different kinds of barriers. Globalization has made it essential for us to recognize this reality more than ever. This volume tries to bridge the gap and presents theories and concepts from researchers around the world.

Korean Communication, Media, and Culture Kyu Ho Youm, Nojin Kwak, 2018-08-31 Korean Communication Media and Culture is a bibliography of English language publications for non-Korean speaking academics, researchers, and professionals. In addition to the actual annotations of all the major books, book chapters, journal articles, and theses/dissertations, each chapter includes contextual introductory commentary on its topic. The authors not only historicize their findings but they also prescribe the direction that English language research on Korean communication should take.

Culture and Public Relations Krishnamurthy Sriramesh, Dejan Verčič, 2012 Culture and Public Relations explores the impact of culture on societal and organizational life through the global lens of public relations. Structuring the volume around three themes: culture as an environment for public relations, the culture of PR globally, and the impact of PR on culture, the editors bring together compelling discussions on such questions as how spirituality, religion, and culture have affected public relations and how public relations culture has been affected by the corporate cultures of business enterprises. Additionally, the volume provides studies on the effect of culture on public relations practice in specific countries. With contributors from Europe, Asia, Australia, and North America, this collection offers international perspectives on a topic that is growing increasingly important in public relations study and practice. It is required reading for scholars, researchers, and students in public relations and also has much to offer the business discipline for those seeking to integrate culture and communication into their practices.
