Stone, 1989-04-13 Designed to meet the needs of both the public relations education and public relations practitioner communities this comprehensive text explores the types of research most used in public relations practice The first introductory level volume to treat the subject in depth Public Relations Research provides a theoretical framework for reader application defines the knowledge necessary for public relations research elaborates upon informal and formal research methods and describes the techniques involved and provides models for subsequent use Following an introductory chapter that redefines the nature and role of public relations research the book is divided into two major sections The first deals with informal research methods and covers research

foundations environmental monitoring informal research secondary research and the use of computers in research In Part Two the authors describe formal research methods addressing issues such as intermediate research considerations the use of survey questionnaires data and content analysis reporting survey results and quasi quantitative procedures Ideal as an undergraduate and graduate level text in public relations this volume will also be an indispensable guide to research practice for entry and junior level public relations specialists Marketing Information Georgia State University. College of Business Administration. Business Publishing Division,1987 **Public Relations and Community** Dean Kruckeberg,Kenneth Starck,1988-05-23 This slim volume hits hard at one major point public relations practitioners need to abandon their dominant attitude of narrowly serving the needs of their clients and instead attempt to engender a broad based sense of community By approaching public relations from this broader perspective both the needs of the client and the community are served Implicit in this theory is that a closer knit community will retain more traditional family based values and therefore comprise a more stable and appreciative economic unit for one s client Canadian Journal of Communication Public relations is commonly viewed as using persuasive communications to achieve a client s vested goal Kruckeberg and Starck challenge this oversimplified approach asserting that public relations is a complex multi flow process that should and can affect society as a whole In Part I they examine critically the historical definition and practice of public relations outlining the shortcomings of this narrow approach Part II explores how the community itself has changed Such issues as the shift from rural to urban life and the attempt to regain a sense of community are discussed Part III attempts to reconcile the authors new notion of public relations and community through an in depth case study The results lead the authors to conclude that only if public relations is practiced as an active attempt to build a sense of community can it become a full partner in the communications milieu **Precision Public Relations** Ray Eldon Hiebert,1988 Offering a mix of articles that show how the field can benefit from a serious and systematic study of human behaviour and human communication this text is based on the assumption that public relations problems are too important to be solved by guesswork **American Advertising** Emelda L. Williams,Donald W. Hendon,1988 **Business Marketing** ,1986 Marketing and Sales Management Jean Herold,1988-03-15 Professional Practice Development E W.
