**Public Support for International Development** OECD Development Centre, 1996-05-21 Is public support for international development failing The question was examined in a number of contexts during a meeting of experts brought together in a joint enterprise by the OECD Development Assistance Committee and the OECD Development Centre Views ranged widely but the overall **Development Centre Studies Public Attitudes and International Development Co-operation** North-South Centre of the Council of Europe, OECD, 1998-11-20 This collection of studies of public attitudes to development co operation in OECD Development Assistance Committee DAC Member countries demonstrates that the concept of aid fatigue is misplaced A serious lack of adequate knowledge about *Development Centre Studies Facts about European NGOs Active in International Development* Woods Adèle, 2000-10-02 This statistical analysis demonstrates that NGOs have moved out of the amateur world in which they were once confined into in many cases highly professional activities and that they have become major partners for governments in the development field **Canadian International Development Assistance Policies** Cranford Pratt, 1996 For 25 years Canadians have argued whether the Canadian International Development Agency is the primary vehicle for helping basic human and development needs of the poorest countries and people or a tool for commercial exploitation and foreign policy Contributors from the government development organizations and academia analyze the components of Canadian aid the issues the agency has to deal with and the pressures it responds to Annotation copyright by Book News Inc Portland OR *Celebrity Advocacy and International Development* Dan Brockington, 2014-04-03 Celebrity advocacy is a curious phenomenon It occupies a significant proportion of the public domain but does so without engaging particularly well with much of the public Yet this may not matter very much Many people at the core of advocacy and in political and business elites simply do not notice any lack of engagement In these circles celebrity advocacy can be remarkably effective *Celebrity Advocacy and International Development* examines the work of celebrity advocacy and lobbying in international development Its purpose is to understand the alliances resulting their history consequences wider contexts and implications It argues that celebrity advocacy signals a new aspect of elite rule For populist celebrity advocacy can mark ironically a disengagement between the public and politics and particularly the public and civil society Recognising this poses new challenges but also presents new opportunities for the development movement This book gives students and researchers in development studies and media studies a wealth of original empirical data including interviews across the NGO sector media and celebrity industries newspaper analysis large surveys of public opinion and focus group research *Anti-Corruption in International Development* Ingrida Kerusauskaite, 2018-02-06 Corruption is linked to a wide range of developmental issues including undermining democratic institutions slowing economic development and contributing to government instability poverty and inequality It is estimated that corruption costs more than 5 per cent of global GDP and that more than one trillion US dollars are paid in bribes each year This book unpacks the concept of

corruption its political and ethical influences its measurement commitments to combat corruption and ways that this is being attempted Building on the research on the nature causes and consequences of corruption this book analyses international anti corruption interventions in particular It discusses approaches to focus efforts to tackle corruption in developing countries on where they are most likely to be successful The efforts of the UK are considered as a detailed case study with comparisons brought in as necessary from other countries and multilateral institutions anti corruption efforts Bridging a range of disciplines Anti Corruption in International Development will be of interest to students and scholars of international development public administration management international relations politics and criminal justice *International Development and Food Assistance Act of 1975* United States. **International Development** Bruce Currie-Alder,Ravi Kanbur,David M. Malone,Rohinton Medhora,2014 A central premise is that an objective and universally accepted measure of success in development and paths to it does not exist *Draft International Development (Official Development Assistance Target) Bill* Great Britain: Parliament: House of Commons: International Development Committee,2010-03-23 In 1970 the UN General Assembly called on the economically advanced countries to provide 0.7% of their income as Official Development Assistance ODA by the middle of the decade In 2004 the UK committed to meet the target by 2013 The Government proposes to enshrine in law its commitment to meet the target in 2010 and each subsequent year Whilst the legislation is widely welcomed the Committee remains uncertain that it will have the wider impact claimed The accountability measures contained in the draft Bill weaken the commitment and provide the Government with an easy excuse for not meeting the target The 2002 International Development Act stipulates that DFID s expenditure on ODA should have poverty reduction as its primary objective With increasing pressure to find additional finance for responding to climate change or to new types of security threats there is a danger that increased amounts of UK ODA will be used for purposes only marginally related to poverty reduction The Government must take

appropriate steps to guard against this whether or not the Bill becomes law Ultimately the Committee supports the 0.7% goal and feels the UK should maintain and build on its reputation as a donor

**International Development Assistance Act of 1979** United States. Congress. Senate. Committee on Foreign Relations, 1979 *Religion and British International Development Policy* Aikande Clement Kwayu, 2020-03-12 This book studies the relationship between British government and faith groups in its international development agenda within and beyond the context of Brexit It includes aspects of International Relations International Development and Religion and Politics to trace the relationship between the British government and faith groups showing that the relationship is enhanced on three conditions i the resurgence of religion in international affairs ii the attitudes of politicians and political parties towards the third sector i.e. voluntary and private sectors and iii the rising prominence of the international development agenda in British politics The third condition triggers the need to understand this relationship in the wake of Brexit Thus the book aims to analyze to what extent the increasing prominence of an international development agenda in British politics explains the relationship between the government and faith groups and ultimately whether Brexit has increased the prominence of international development agenda and brought faith groups into closer relations with the government

Education and International Development Tristan McCowan, Elaine Unterhalter, 2015-01-29 Honorable Mention 2016 PROSE Award Education Practice Education is fundamental to every aspect of development and there is widespread support across the world for policies that affirm that all children regardless of their circumstances have a right to quality schooling Yet despite concerted efforts from national governments multilateral organisations and NGOs over many decades we are still far from achieving education for all In addition while education can enhance human development it is also associated with persistent inequalities Education and International Development provides a comprehensive introduction to the field giving an overview of the history influential theories important concepts and areas of achievement and presenting a critical reflection on emerging trends in policy practice and research With chapters that review key challenges and inspiring initiatives in countries around the globe focusing on critical issues such as language conflict and teachers this book serves both as a companion to graduate studies in international education and a concise reference book for practitioners and educators in the field

Global Learning and International Development in the Age of Neoliberalism Stephen McCloskey, 2021-10-13 This book argues that the international development sector is in crisis which can be mostly sourced to its side stepping the dominant development question of our age the neoliberal growth paradigm It argues that this crisis can be addressed at least in part by the sector's re engagement with the radical development education process that it helped to foster and sustain for

over two decades The recent safeguarding scandal is symptomatic of a sector that is becoming overly hierarchical brand conscious and disconnected from its base This book argues that many of the problems the sector is facing can be sourced to its failings in grappling with the question of neoliberalism and formulating a coherent critique of how market orthodoxy has accelerated poverty in the global North and South This book recommends re embracing the radical origins of global learning situated in the participative methodology and praxis reflection and action of Paulo Freire both as internal capacity building and external public engagement The book proposes a new development paradigm focusing on bottomup participative approaches to policy making based on the needs of those NGOs claim to represent the poor marginalised and voiceless rather than constantly following the agenda of donors and governments The recommendations made by this book will serve as an important resource for researchers and students of international development and global learning as well as to NGOs civil society activists and education practitioners looking for solutions to the problems within the sector
