The published works of William Foxwell Albright James Barr, 1976 The Encyclopedia of Christian Literature George Thomas Kurian, James D. Porter, Zachary K.

Dawson, 2021-06-07 This third volume like its predecessors adds to the growing body of literature concerned with the history of biblical interpretation With eighteen essays on nineteen biblical interpreters volume 3 expands the scope of scholars both traditional and modern covered in this now multivolume series Each chapter provides a biographical sketch of its respective scholar s an overview of their major contributions to the field explanations of their theoretical and methodological approaches to interpretation and evaluations and applications of their methods By focusing on the contexts in which these scholars lived and worked these essays show what defining features qualify these scholars as pillars in the history of biblical interpretation While identifying a scholar as a pillar is somewhat subjective this volume defines a pillar as one who has made a distinctive contribution by using and exemplifying a clear method that has pushed the discipline forward at least within a given context and time period This volume is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the field of biblical studies has developed and how certain interpreters have played a formative role in that development **Chronicles and the Priestly Literature of the Hebrew Bible** Jaeyoung Jeon, Louis

Planting and Reaping Albright Burke O. Long, 2010-11. This book examines the social formation and ideological practices of William Foxwell Albright, the gifted Johns Hopkins linguist and archaeologist who, along with a fiercely loyal and organized group of former students, exerted uncommon influence on the substance and direction of mid-twentieth-century biblical studies. Albright and these devoted students, such as G. Ernest Wright, Frank Moore Cross Jr., David Noel Freedman, John Bright, George E. Mendenhall, came to be known as the Albright School. Burke Long here treats the field of biblical studies not as a repository of objective knowledge but as a culture created by like-minded people whose knowledge is mediated through the ideologically charged give and take of social interactions. A first of its kind for biblical studies, *Planting and Reaping Albright* draws on private letters, interviews, and published work to expose ideological presuppositions and political machinations embedded in historical knowledge about the Bible. That this group of scholars constructed and disseminated through its various activities Long investigates Albright's many assumptions about the way things really are and the ways in which his students, describing themselves as sons of Albright, embarked on a crusade to secure political and ideological dominance of the landscape of American biblical scholarship. The Albright School constituted a sociological phenomenon that had lasting consequences for American intellectual history and scholarship. Accordingly, this book suggests ways in which Albright or a social realization of Albright was present in and presented to a culture of generational and ideological solidarity.

Puritans in Babylon Bruce Kuklick, 2018-12-04. From the 1880s through the 1920s, a motley collection of American scholars, soldiers of fortune, institutional bureaucrats, and financiers created the academic fields that give us our knowledge of the ancient Near East. Bruce Kuklick's new book begins with the story of the initial adventure of these determined investigators: a twelve-year dig near the Biblical Babylon at Nippur, conducted at intervals from 1888 through 1900 and bankrolled by the Babylonian Exploration Fund. To unearth tens of thousands of cuneiform tablets, the leaders of this venture faced harsh living conditions in the desert and an academic war of each against all that was quickly begun at the site itself. As their knowledge increased, they risked their personal religious beliefs in the search for historical truth. Kuklick discusses their tribulations to illuminate two other contemporary developments: first, the maturation of the American university, particularly in contrast to its German counterpart; and second, the influence of religious/secular conflict on the ways in which Western scholarship appropriated or appreciated other cultures. The Nippur expedition

spawned unseemly and entertaining fights among the University of Pennsylvania Johns Hopkins Yale Harvard and Chicago for leadership in the study of ancient Near East not to mention disagreements with their own developing museums and an international scandal called the Hilprecht controversy More significant than these quarrels was the concern for the meaning of history displayed in this period of Near Eastern scholarship The field was linked to Biblical criticism and Judeo Christian interests and many of the orientalist originally possessed strong religious commitments which some put aside as they struggled for objectivity As recent critics have shown orientalism was an example of the West's ability to appropriate the other for its own purposes However Kuklick's study demonstrates that the censure of orientalism hinges on modes of argumentation that scholars of the ancient Near East helped to legitimate and at no small cost to themselves Bruce Kuklick is Killbrew Professor of History at the University of Pennsylvania Among his books are *To Every Thing a Season* Shibe Park and Urban Philadelphia 1909 1976 Princeton Churchmen and Philosophers Jonathan Edwards to John Dewey and *The Rise of American Philosophy* Cambridge Massachusetts 1860 1930 Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

A. Janssen, Jehu's Tribute Jeffrey L. Cooley, Rannfrid I. Lasine Thelle, 2025-06-03 The findings of Assyriology have been applied to biblical studies ever since the former emerged as a scholarly discipline in the mid nineteenth century Today the scholarly flow from Assyriology to biblical studies continues yet rarely are the fruits of biblical scholarship brought to bear on the study of ancient Assyria and Babylon The present volume aims to reverse this unidirectional trend Considering that the literature preserved in the Hebrew Bible is the product of a people who had significant contact with both Assyria and Babylonia then surely the study of the Hebrew Bible has something to offer Assyriology But what The contributors approach this question from a variety of disciplinary perspectives including intellectual history museology and religious and political history The authors also offer broad methodological considerations and more focused text based case studies Written by leading scholars in the fields of Assyriology and Hebrew Bible Jehu s Tribute presents a fresh approach to the multifaceted relationship between Assyriology and biblical studies In addition to the volume editors the contributors include C line Deourse Jessie DeGrado Eckart Frahm Shalom E Holtz Gina Konstantopoulos Alan Lenzi Alice Mandell Dustin Nash Beate Pongratz Leisten Seth Sanders Anthony P SooHoo SJ and Abraham Winitzer The Scriptures and Archaeology Edwin M. Aufrecht, 2014-06-06 At the first meeting of his class in Northwest Semitic Epigraphy at Harvard Frank Cross would inform students that one of the things each of them needed was an eye for form By this he meant the ability to recognize typological or evolutionary change in letters and scripts

Frank like his teacher William Foxwell Albright was a master of typological method In fact typology was the dominant feature of his epigraphic work from the origins of the alphabet to the development of the scripts of the Dead Sea Scrolls Indeed he has written about the importance of typology itself Because Frank Cross has so dominated the study of the ancient Near East in the last 60 years Aufrecht once asked him what he considered his primary field of study to be Without hesitation he said Epigraphy It seems therefore that the field that he loved and to which he contributed so much is an appropriate subject for this Festschrift in his honor which is being presented by his colleagues friends and former students Included are an appreciation by Peter Machinist and a contribution by the late Pierre Bordreuil
