Basaglia's International Legacy: From Asylum to Community Tom Burns, John Foot, 2020-05-28 Franco Basaglia 1924 1980 was an Italian psychiatrist and activist who proposed the dismantling of psychiatric hospitals and pioneered new ideas about mental health and its treatment Basaglia was also one of the principal proponents of Italy's Law 180 which effectively closed down large mental hospitals in Italy His ideas and his disciples have had a decisive influence in the move away from institutional care in many parts of the world particularly in continental Europe and South America However Basaglia is strikingly absent from the literature in Germanic and Anglophone psychiatry Most of the literature about Basaglia in the last 40 years has been published by his followers and supporters and has often been largely positive with little exploration of differing responses or possible limitations of his model Basaglia's International Legacy From Asylum to Community provides an overview of current thinking and the international influence of Franco Basaglia This resource draws on the combined knowledge of clinicians policy makers historians and social scientists including a handful of Basaglia's collaborators It

provides an in depth understanding and critical analysis of the various applications of his thinking worldwide Organised into three broad sections chapters examine Basaglia s work and influence in Italy in the Basaglian countries of Europe and South America and in those countries where his influence has either been rejected or significantly modified The Editors bring together the contributions and draw out the important messages both positive and negative for current clinical practice and development within international mental health services

From Sign to Text Y. Tobin,1989-01-01 This volume contains selected contributions from the colloquium From Sign to Text Ben Gurion University 1985 and combines the diverse interdisciplinary interests and approaches of the contributors in a fundamentally shared definition of language seen as a flexible and open ended system of systems revolving around the notion of signs used by human beings to communicate The special interrelationship between signs and texts is discussed both theoretically and methodologically The collection consists of an English and a French section

Ambiguous Antidotes Hilaire Kallendorf,2017-10-31 Chastity and lust charity and greed humility and pride are but some of the virtues and vices that have been in tension since Prudentius *Psychomachia* written in the fifth century While there has been widespread agreement within a given culture about what exactly constitutes a virtue or a vice are these categories so consistent after all In *Ambiguous Antidotes* Hilaire Kallendorf explores the receptions of Virtues in the realm of moral philosophy and the artistic production it influenced during the Spanish Golden Age Using the Derridian notion of *pharmakon* a powerful substance that can serve as poison and cure Kallendorf s original and pioneering insight into five key Virtues justice fortitude chastity charity and prudence reveals an intriguing but messy relationship Rather than being seen as unambiguously good antidotes the Virtues are instead contested spaces where competing sets of values jostled for primacy and hegemony Employing an arsenal of tools drawn from literary theory and cultural studies *Ambiguous Antidotes* confirms that you can in fact have too much of a good thing

Collective Memory Narratives in Contemporary Culture Antonella Pocecco,Estrella Gualda,Emiliana Mangone,2023-11-27 Starting from the central importance of memory in contemporary societies this book encourages a transdisciplinary reflection on how the presentification of the past is never a simple reenactment but corresponds to the interaction between memory and cultural sensitiveness present beliefs and needs expectations and forecasts for the future It studies cultural re construction through collective stories including academic debates media narratives collective mobilizations state narratives of history architectural reconstructions and artistic expressions It looks at how technological innovations have profoundly changed the practices of conservation and dissemination of collective memory with particular reference to cultural digitization Finally it shows that the relevance and selection of events the organization of connections and cross references between past present and future as well as the importance of diversified collective imaginaries are the keys to narrative constructions of memory that prove to be sensitive and decisive for its continuity and its intergenerational transmission This interdisciplinary collection is for students and scholars of the social sciences cultural studies and the humanities interested in memory studies
