Pullman an Experiment to Industrial Order and Community Planning Stanley Buder,1970      *Pullman: an Experiment in Industrial Order and Community Planning, 1880-1930* Stanley Buder,1967      **Pullman** Stanley Buder (Associate Professor of History, Bernard M.Baruch College, City University of New York.),1974      **Expanding the American Dream** Barbara M. Kelly,1993-02-02 Much has been written about the housing policies of the Depression and the Postwar period Much less has been written of the houses built as a result of these policies or the lives of the families who lived in them Using the houses of Levittown Long Island as cultural artifacts this book examines the relationship between the government sponsored mass produced housing built after World War II the families who lived in it and the society that fostered it Beginning with the basic four room slab based Cape Cods and Ranches Levittown homeowners invested time and effort barter and money in the expansion and redesign of their houses The author shows how this gradual process has altered the socioeconomic nature of the community as well bringing Levittown fully into the mainstream of middle class America This book works on several levels For planners it offers a reassessment of the housing policies of the 1940s and 50s suggesting that important lessons remain to be learned from the Levittown experience For historians it offers new insights into the nature of the suburbanization process that followed World War II And for those who wish to understand the subtle workings of their own domestic space within their lives it offers food for speculation      The Fall of the House of Labor David Montgomery,1987-08-28 This book studies the changing ways in which American industrial workers mobilised concerted action in their own interests between the abolition of slavery and the end of open immigration from Europe and Asia Sustained class conflict between 1916 and 1922 reshaped governmental and business policies but left labour largely unorganised and in retreat The House of Labor so arduously erected by working class activists during the preceeding generation did not collapse but ossified so that when labour activism was reinvigorated after 1933 the movement split in two These developments are analysed here in ways which stress the links between migration neighbourhood life racial subjugation business reform the state and the daily experience of work itself      **Chicago** Dominic A. Pacyga,2024-05-31 Chicago has been called by many names Nelson Algren declared it a City on the Make Carl Sandburg dubbed it the City of Big Shoulders Upton Sinclair christened it The Jungle while New Yorkers naturally pronounced it the Second City At last there is a book for all of us whatever we choose to call Chicago In this magisterial biography historian Dominic Pacyga traces the storied past of his hometown from the explorations of Joliet and Marquette in 1673 to the new wave of urban pioneers today The city s great industrialists reformers and politicians and indeed the many not so great and downright notorious animate this book from Al Capone and Jane Addams to Mayor Richard J Daley and President Barack Obama But what distinguishes this book from the many others on the subject is its author s uncommon ability to illuminate the lives of Chicago s ordinary people Raised on the city s South Side and employed for a time in the stockyards Pacyga gives voice to the city s

steelyard workers and kill floor operators and maps the neighborhoods distinguished not by Louis Sullivan masterworks but by bungalows and corner taverns Filled with the city's one of a kind characters and all of its defining moments Chicago A Biography is as big and boisterous as its namesake and as ambitious as the men and women who built it **The People's**

**Zion** Joel Cabrita,2018-06-11 Joel Cabrita tells the story of Zionism which began in a utopian community near Chicago in 1900 Its faith healing spiritualism uplifting pan racialism and missionary zeal resonated with marginalized urban working class whites and blacks in both the United States and Southern Africa Today Zionism is Southern Africa's largest religious movement **Pullman: an experiment in industrial order and community planning**,1979 *Gilded Age*

*Entrepreneur* Simon Cordery,2025-09-15 Simon Cordery's *Gilded Age Entrepreneur* illuminates the fascinating and chaotic business world of Albert Pullman The influential but little known older brother of George Pullman and the craftsman of the family Albert designed the first luxurious Pullman railroad cars and hosted promotional trips to show them off In those heady early days he met national business and political leaders and hired the first Pullman porters Albert and George made a formidable team but as the Pullman Company grew Albert's role shrank He turned to his own investment portfolio often with disastrous results Beginning with the industrial laundry that cleaned sleeping car linens Albert appeared before the Supreme Court after a catastrophic insurance investment ran afoul of federal banking regulations and failed in an attempt to corner wheat futures With evermore unsuccessful speculations Albert was tempted by extralegal land sales and entered the silver mining game Finally his own family in crisis and his relationship with George shattered Albert Pullman launched into one last round of adventurous investments with mixed results *Gilded Age Entrepreneur* demonstrates that Albert Pullman embodied the small time investors who were legion after the Civil War From banking and insurance to manufacturing and mining a host of hopeful dreamers like Albert Pullman fueled the circulation of capital by forging political connections creating and losing businesses issuing shares and longing for profit **Made in USA** Andrew J. Theising,2003 The first ever comprehensive history of this troubled city the book includes more than 250 photographs and images of the people and events that shaped East St Louis Andrew Theising a professor of political science at Southern Illinois University at Edwardsville examines the city's past from the prominent role it played in the growth of 19th century industrial America to its presently depleted state For Theising East St Louis is more than just a river city suburb it is an example of industry creating and then abandoning a city and it is also one of the most misunderstood cities in America *An Urban World* Charles Tilly,1974 The concentration of people and their activities in big concentrated centers make most people vulnerable to the decisions of many As collective creations cities impose collective risks and collective responsibilities *Southern California Quarterly*,1998 **Welfarism**
