Puma And Other German Heavy Reconnaissance Vehicles:

Puma and Other German Heavy Reconnaissance Vehicles Horst Scheibert, 1997-01-15 Covers the use and design of the Puma and other German reconnaissance vehicles **More Than Courage** Phil Nordyke, 2008-10-21 Drawing on many oral and unpublished written accounts from veterans of the 504th Parachute Infantry Regiment Phil Nordyke brings the history of the regiment to life conveying with remarkable immediacy and power what it was like to be there This is history as it was lived by the men of the 504th from their pre war coming of age in the regiment through the end of World War II when they marched in the Victory Parade down Fifth Avenue in New York The 504th earned three bronze stars for their parachute wings one for each of their combat jumps Armor, 1974 **German Military Vehicles of World War II** Jean-Denis G.G. Lepage, 2014-11-18 This volume presents a cross section of the most common transport vehicles produced and used by the German army Tanks plus auxiliary vehicles such as cars motorcycles vans ambulances trucks and tractors made it possible for the troops to keep moving These lightly armored or unarmored vehicles aka soft skins operated behind the front lines maintaining supply lines connecting armies with their home bases and ultimately determining the outcome of battle Beginning with the development of military vehicles in the early 1930s this volume discusses the ways in which this new technology influenced and to some extent facilitated Hitler s program of rearmament Nomenclature standard equipment camouflage and the combat roles of the various vehicles are thoroughly examined Individual vehicle types are arranged and discussed by the following classifications cars and motorcycles trucks and tractors half tracks and wheeled combat vehicles Accompanied by well researched detailed line drawings each section deals with a number of individual vehicles describing their design manufacture and specific use **German Tanks & Armored Vehicles, 1914-1945** Brian Terence White, 1968

Days of Battle Norbert Számvéber, 2013-10-19 This volume of WWII military studies examines significant yet neglected clashes of German Hungarian and Soviet armor north of the river Danube In Days of Battle Dr Norbert Számvéber chief of Hungary s military archives examines armor combat operations in the southern territory of the historical Upper Hungary part of Hungary between 1938 and 1945 at the present time now part of Slovakia in three separate studies The first is an account of the battle between the Ipoly and Garam rivers during the second half of December 1944 in which the lite Hungarian Division Szent László saw action for the first time The second study examines the fierce tank battle of Komárom fought between January 6th 22nd of 1945 This was an integral part of the Battle for Budapest parallel in time with Operation Konrad The third study describes the combat during the German Operation Sündwind in February 1945 as well as the Soviet attack launched in the direction of Bratislava in March 1945 Based on files and documentation from German Hungarian and Soviet sources Dr Számvéber s authoritative text is supported by photographs and color battle maps *The Ardennes, 1944-1945* Christer Bergström, 2014-12-19 A comprehensive photo filled account of the six week long Battle of the Bulge when panzers slipped through the forest and took the Allies by surprise In December 1944 just as World War II appeared to be winding

down Hitler shocked the world with a powerful German counteroffensive that cracked the center of the American front The attack came through the Ardennes the hilly and forested area in eastern Belgium and Luxembourg that the Allies had considered a quiet sector Instead for the second time in the war the Germans used it as a stealthy avenue of approach for their panzers Much of US First Army was overrun and thousands of prisoners were taken as the Germans forged a fifty mile bulge into the Allied front But in one small town Bastogne American paratroopers together with remnants of tank units offered dogged resistance Meanwhile the rest of Eisenhower's broad front strategy came to a halt as Patton from the south and Hodges from the north converged on the enemy incursion Yet it would take an epic six week long winter battle the bloodiest in the history of the US Army before the Germans were finally pushed back Christer Bergström has interviewed veterans gone through huge amounts of archive material and performed on the spot research in the area The result is a large amount of previously unpublished material and new findings including reevaluations of tank and personnel casualties and the most accurate picture yet of what really transpired from the perspectives of both sides With nearly four hundred photos numerous maps and thirty two superb color profiles of combat vehicles and aircraft it provides perhaps the most comprehensive look at the battle yet published

World Tanks and Reconnaissance Vehicles Since 1945 Noel Ayliffe-Jones, 1984 *Puma Sdkfz 234/1 and Sdkfz 234/2 Heavy Armoured Cars* Dennis Oliver, 2023-07-30 a well researched title that covers a lesser known type and that manages to squeeze a heck of a lot into 64 pages WarWheels The lightning advances of the German armored units during the Polish and French campaigns were spearheaded by fast moving armed reconnaissance vehicles But these early designs suffered heavily due to their light weaponry and thin armor and a program was soon underway led by the firm of Büssing NAG which culminated in the development of the Sdkfz 234 series of heavy eight wheeled armored cars the first of which entered service in late 1943 These vehicles proved to be rugged and reliable and were gradually up armed to serve in the infantry support role and eventually as tank killers This volume of the LandCraft series concludes the story of the Sdkfz 234 series examining the versions that took part in the last battles of the war Using archive photos and extensively researched color illustrations Dennis Oliver examines the Sdkfz 234 1 and Sdkfz 234 2 and the units that operated these often neglected yet important armored vehicles A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks

All American, All the Way Phil Nordyke, 2010-03-11 Through the words of its veterans details the regimental history of the 82nd Airborne Division All Americans from Operation Husky in July of 1943 through D Day and Operation Market Garden to the Battle of the Bulge and finally ending in Berlin as part of the occupying forces

Whitaker's Books in Print, 1998 **Blocking Kampfgruppe Peiper** Frank van Lunteren, 2015-09-19 The account of these elite paratroopers encounter with the Germans is a story of raw

courage in the face of seemingly impossible odds a great read World War II In December 1944 an enormous German army group crashed through the thin American line in the Ardennes forest Caught by surprise the Allies were initially only able to throw two divisions of paratroopers to buttress the collapse the 82nd Airborne which was rushed to the area of St Vith and the 101st which was trucked to Bastogne After their successful campaign in Holland Col Reuben Tucker s elite 504th Parachute Infantry Regiment was resting and refitting in France when news came of the German breakthrough Most dangerous to the Allies was the German spearhead of the 1st SS Panzer Division led by Jochen Peiper which aimed to sever the Allied front The 504th was committed to block the SS advance and within forty eight hours of their arrival Col Tucker s paratroopers were attacking the SS Panzergrenadiers of Peiper s battlegroup eventually forcing them to withdraw More ferocious fighting ensued as follow up German units forced a US retreat from St Vith In adverse weather conditions against the German 9th SS Panzer and 3rd Fallschirmj ger Divisions the 504th lived up to its regimental motto Strike and Hold Although some rifle companies were whittled down to less than fifty paratroopers the Americans doggedly fought on until victory was achieved This work provides a fascinating up close view of the 504th PIR during the Battle of the Bulge as well as its gallant sacrifice Using never before published diaries letters battle reports and interviews with over a hundred veterans a comprehensive account is painted of a triumphant US regiment in one of the fiercest fought campaigns in the history of the US Army

The Crushing of Army Group North 1944-1945 on the Eastern Front Ian Baxter,2017-01-30 The Crushing of Army Group North 1944 45 on the Eastern Front tells the story in words and images of the last bitter months fought on Russian soil and the battle of the Baltic States that ensued Drawing on rare and unpublished photos it reveals in detail how remnants of Army Group North were driven back to the borders of Estonia Latvia and Lithuania In the battles that followed the retreating German Panzer and infantry divisions were encircled and annihilated With the remnants were pushed back into East Prussia and then fought to the death in the last few small pockets of land surrounding three ports of Libau in Kurland Pillau in East Prussia and Danzig at the mouth of the River Vistula It was here that the final battle of Army Group North would take place after Hitler ordered his troops to stand and fight and wage an unprecedented battle of attrition

Tip of the Spear Robert J. Edwards,2015-11-15 During World War II German armored reconnaissance laid the groundwork often through small unit actions for the stunning tank and infantry operations that made the German military famous Robert Edwards s follow up to Scouts Out the first extensive treatment of the subject in English focuses on the battles and personalities found in ranks of the Waffen SS Luftwaffe and other divisions Covers armored reconnaissance in Poland France in 1940 the Balkans North Africa the Eastern Front Italy and the Western Front Numerous firsthand accounts and after action reports Analysis of recon operations from tactics and doctrine to vehicles and commanders *Field Artillery* ,2005-05

Lake, 2019-01-22 Why has the US military begun to suffer from overstretch in recent decades Why is one of the largest militaries in the world and the most expensive by far periodically stressed by the operational demands placed upon it This book argues that recent problems with overstretch are the result of a heavy reliance on technology to solve tactical and strategic problems Over the last seven decades the US armed services have consistently chosen to push the technological frontier out in an effort to first gain and then maintain qualitative superiority over potential foes The high procurement and support costs associated with cutting edge weapon systems has resulted in a military that is shrinking in both absolute size and in the relative share of combat forces The culmination of this process is a US military that increasingly lacks the capacity needed to conduct operations without putting significant stress on its personnel and equipment Lake argues that this pattern is a manifestation of an American cultural disposition favoring technology He shows that this affinity for technology is present in the organizational cultures of all the armed services though not to the same degree By examining procurement programs for each armed service this book reveals how attempts to develop and leverage superior technology has resulted in some notable program failures high procurement costs for the latest generation of equipment with associated production cuts and the high support requirements that are causing the relative share of combat forces to shrink Lake's analysis of recent initiatives by the armed services suggests that this pattern is likely to continue with the US military remaining prone to overstretch whenever its operational tempo increases above the peacetime baseline **Gunners from the Sky** Paul

Chrystal, David Chrystal, 2023-10-12 This is the story of the 1st Air Landing Light Regiment RA and its role in the Italian campaign and at the Battle of Arnhem It is also the story of one of its soldiers 14283058 Gunner Eric Wright Chrystal father of the authors Eric joined the army in September 1942 and after training joined the newly formed glider borne regiment the following year He first saw action in Italy in 1943 where he was seriously wounded On 17 September 1944 two years to the day since he enlisted he and the regiment were landed by glider near to Arnhem in the Netherlands The authors recount set their father's experiences in context by describing the formation of the unit and the many months of training in England

Their involvement in the Italian campaign where Eric served with E Troop 3 Battery is then recounted detailing their actions at Rionero Foggia and Campobasso where Eric was wounded It then moves on to describe 1st Air Landing Light Regiment s preparation for and involvement in Operation Market the Airborne half of Market Garden This very detailed account of the fighting highlights the regiment s pivotal but often neglected role near Arnhem bridge Here after nine days of intense combat Eric was among the many captured and held until the end of the war The inclusion of Eric s own eyewitness testimony lends a very personal touch to this excellent account of the regiment s experience of combat and life in the PoW camps
