Young students need to continually be presented with a vast variety of types of books, authors, illustrators, and subject matter in order to find the perfect concept or image that sparks their imagination, takes their comprehension to a new level, or helps them turn the corner to becoming a book lover. Nancy J. Polette's The Picture Book Almanac: Picture Books and Activities to Celebrate 365 Familiar and Unusual Holidays can be used year-round as a key to open that great literary treasure vault. The books Polette has painstakingly selected for their value as learning opportunities tie into both familiar and unusual holidays, ranging from official nationally recognized holidays to obscure ones such as Milk Day and Thesaurus Day. The daily featured book titles cover the classics such as books in the Paddington Bear series and Cinderella, to outstanding current and just-published titles, collectively representing the best choices for collection building over time. This book is an excellent tool for collection development as well as an indispensable resource for reading teachers and classroom teachers. **From Pumpkin Time to Valentines** Susan Ohanian, 1994-08-15 Keep students happily focused on learning during two of the most exciting holidays of the year for the elementary classroom: Halloween and Valentine's Day. Hetrick, 2013-06-18 According to recent research, the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly, maintaining interest. Using a selected book in a number of consecutive preschool storytimes but presenting it differently each time can help children learn new skill sets. This book presents a new approach to storytime, one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant-Cohen recently awarded the 2013 ASCLA Leadership and Professional Achievement Award and Hetrick offers a year's worth of activities specifically designed to address multiple intelligences through a repetition-based process. Incorporating recent theories on developmental learning, this book includes Scripts for 8 different books with enough activities to repeat each one for six weeks, along with lists of optional alternative books. Planning aids such as outlines of storytime sessions, a fill-in-the-blanks planning sheet, questions for evaluation and tips for enhanced storytimes using props and crafts. Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents, caregivers and other stakeholders. From setup to execution, here's everything you need to create and implement a successful elevated storytime      **Pumpkins** Melvin Berger, 2004      Great Books for Babies and Toddlers Kathleen Odean, 2008-12-18 The ideal time to begin sharing books with children is during babyhood, even with children as young as six weeks. Starting Out Right National Research Council. All parents hope to give their children the best possible start in life.
