*Cruel and Unusual Punishment* Sanaz Alasti, 2009 Cruel and unusual punishment is one of the most contentious issues in modern times The condemnation of cruel and unusual punishment is universal But what exactly is cruel and unusual punishment In national and international law the definition of what constitutes cruel and unusual punishment is highly subjective Almost all countries prohibit inhuman punishments Countries vary in the extent to which they legally permit what would commonly be considered cruel and degrading punishment or treatment Most countries absolutely prohibit any form of torture This book examines which kinds of punishments constitute cruel and unusual whether these punishments are inherently cruel and unusual excessive disproportionate or unnecessary to society or inflicted arbitrarily The primary aim of this book is to demonstrate that harshness in the law of punishment such as corporal punishment long sentences of imprisonment and harshness in the inflexibility of punishment contradicts with the universal declaration of human rights and every other law concerning this matter Another aim of this book is to use a comparative historical approach in illustrating the similarities and differences in cruel and unusual punishments over time and place In order to achieve this aim the current practices of harsh punishments in both Iran and United States have been critically reviewed Through this comparative historical perspective the reader can gain appreciation of the western and Islamic nature of these punishment practices About the author Sanaz Alasti received a S J D Scientiae Juridicae Doctor from Golden Gate University School of Law San Francisco CA after obtaining LL M from Tehran University and her LL B with Honors in Tehran Iran Dr Alasti has experience in both criminal justice system of United States and Iran She has written numerous books and articles on various aspects of Comparative Criminal Justice Penology Her most recent books are Pioneer Criminologists Criminal law and Criminology Dictionary She has been active in death penalty projects challenging the unfairness and arbitrariness of capital punishment and currently working on Teaching Abolition a project proposing death penalty curriculum to stimulate broader exploration and discussion of capital punishment topics in law schools

**The Treatment of Prisoners under International Law** Nigel Rodley, Matt Pollard, 2011-04-07 This is the third edition of the pioneering work that has become the standard text in the field The first edition was one of the earliest to establish that the newly developing international law of human rights could be set down as any other branch of international law It also incorporates the complementary fields of international humanitarian law and international criminal law while addressing the problems associated with their interaction with human rights law The book is more than a descriptive analysis of the field It acknowledges areas of unclarity or where developments may be embryonic Solutions are offered Recent developments have confirmed the value of solutions proposed in this edition and the previous one Central to most of the chapters is the human rights norm of most salience in the treatment of prisoners namely the prohibition of torture and cruel inhuman or degrading treatment or punishment The early chapters focus on the period of first detention when detainees are most at risk of having information or confessions however unreliable extracted by unlawful means Voices contemplating the legitimacy of such treatment to combat terrorism have been heard in the wake of the atrocities of 11 September 2001 The book finds that the evidence clearly suggests that the absolute prohibition of such treatment remains firm Other chapters deal with problems of poor prison conditions and of certain extraordinary penalties notably corporal and capital punishment A chapter explores ethical codes for members of professions capable of inflicting or preventing the prohibited behaviour police and medical and legal professionals Chapters are also devoted to the extreme practice of enforced disappearance and the contribution of the new convention on this phenomenon as well as to extra legal executions

just system      **The Forgotten People** Saleem Badat, 2013-01-29 The apartheid state employed many weapons against its opponents imprisonment banning detention assassination and banishment In a practice reminiscent of Tsarist and Soviet Russia a large number of enemies of the state were banished to remote areas far from their homes communities and followers Here their existence became a slow torture of the soul a kind of social death This is the first study of an important but hitherto neglected group of opponents of apartheid set in a global historical and comparative perspective It looks at the reasons why people were banished their lives in banishment and the efforts of a remarkable group of activists led by Helen Joseph to assist them      **Norms of Dependency in Late Antique and Early Medieval Societies** Martin Schermaier, Julia Winnebeck, Matthias Becher, 2025-06-02 Late antique and early medieval normative sources frequently employ Roman legal terminology to denote a person's legal inferiority and thus suggest the continued relevance of the concepts associated with these terms However it is far from clear to what extent the use of identical terminology actually indicates the similarity of social phenomena There is ample evidence of important changes regarding the rights and duties of enslaved persons and the development or emergence of other new forms of asymmetrical dependency This raises the question to what extent consistency in terminology and legal practice is actually an indicator of the stability of social structures Against this background a group of scholars of legal ecclesiastical and social history were invited to a conference at the BCDSS in March 2022 to scrutinise different law codes and legal sources for their evidence of dependency The result are these ten papers that truly enhance our understanding of slavery and other dependency relations in late antique and early medieval societies from c 100 to c 900 CE      **Race, Recognition and Retribution in Contemporary Youth Justice** Esmorie Miller, 2021-12-30 Race Recognition and Retribution in Contemporary Youth Justice provides a cross national sociohistorical investigation of the legacy of racial discrimination which informs contemporary youth justice practice in Canada and England The book links racial disparities in youth justice especially exclusion from ideologies of care and notions of future citizenship with historical practices of exclusion Despite the logic of care found in both rehabilitative and retributive forms of youth justice Black inner city youth remain excluded from lenience and social welfare considerations This exclusion reflects a historical legacy of racial discrimination apparent in the harsher sanctions levied against Black innercity youth In exploring race's role in this arrangement the book asks To what extent were Black youth excluded from historic considerations of the lenience and social care built into the logic of youth justice in England and Canada To what extent are the disproportionately high incarceration rates for Black inner city youth in the contemporary system a reflection of a historic exclusion from considerations of lenience and social care How might contemporary justice efforts be reoriented to explicitly prioritize considerations of lenience and social care ahead of penalty for Black inner city youth Examining the entrenched structural continuities of racial discrimination the book draws on archival and interview data with interviewees including professionals who work with inner city youth In concert with the archival and interview data the book offers the intractability malleability I M thesis an

integrated social theoretical logic with the capacity to expand the customary analytical scope for understanding the contemporary entrenched normalization of racialized youth as punishable The aim is to advance a historicized account exploring youth s positioning as constitutive of a continuity of racialized peoples in general and youth s in particular historic exclusion from the benefits of modern rights including lenience and care The I M logic takes its analytical currency from a combined critical race theory CRT and recognition theory The book argues that a truly progressive era of youth justice necessitates cultivating policy and practice which explicitly prioritizes considerations of lenience and social care ahead of reliance on penalty This multidisciplinary book is valuable reading for academics and students researching criminology sociology politics anthropology critical race studies and history It will also appeal to practitioners in the field of youth justice policymakers and third sector organizations
