Before the Fallout Diana Preston, 2009-05-26 On December 26 1898 Marie Curie announced the discovery of radium and observed that radioactivity seems to be an atomic property A mere 47 years later Little Boy exploded over Hiroshima Before the Fallout is the epic story of the intervening half century during which an exhilarating quest to unravel the secrets of the material world revealed how to destroy it and an open international scientific adventure transmuted overnight into a wartime sprint for the bomb Weaving together history science and biography Diana Preston chronicles a human chain reaction of scientists and leaders whose discoveries and decisions forever changed our lives The early decades of the 20th century brought Einstein's relativity theory Rutherford's discovery of the atomic nucleus and Heisenberg's quantum mechanics and scientists of many nations worked together to tease out the secrets of the atom Only 12 years before Hiroshima one leading physicist dismissed the idea of harnessing energy from atoms as moonshine Then on the eve of World War II the power of atomic fission was revealed alliances were broken friendships sundered and science co-opted by world events Preston interviewed the surviving scientists and she offers new insight into the fateful wartime meeting between Heisenberg and Bohr along with a fascinating conclusion examining what might have happened had any number of events occurred differently She also provides a rare

policies Accordingly he was responsible for the war and for the atrocities that the Japanese troops committed in Asia during the Pacific War Japan's Empire Disaster is a book of information and training a reference document that should be read as an educational tool on the history of the modernization of Japan and the war launched by Emperor Meiji and Hirohito to build Japan Empire in the Pacific and East Asia The book shares the view of the author on Hirohito's responsibility on the events that marked Japan's entry into the war that began when Japanese troops invaded Manchuria on September 19 1931 and culminated with Japan's surprise attack on the U S naval base at Pearl Harbor on December 7 1941 *The Rough Guide to China* David Leffman, Rough Guides, 2008-05-05 The Rough Guide to China is the definitive guidebook to one of the world's most fascinating and rapidly changing travel destinations The full colour introduction gives an inspiring insight into many of China's highlights from the awesome scenery down the Yangzi River to the incredible Great Buddha at Leshan and the lavish Confucius Temple Read expert background on everything from the treasures of the Forbidden City to the Buddhist art of the Mogao Caves as well as comprehensive information on China's history politics cultures and peoples This fully updated fifth edition includes an extended chapter on Shanghai and new colour inserts throughout allowing you to choose where to go and what to see inspired by over 150 photos Rely on our selection of the best places to stay and eat for every budget with place names accommodation and restaurants invaluable translated into Chinese script Featuring over 140 detailed maps plus vital Chinese characters this indispensable guide takes you from cutting edge clubs in Shanghai to holy mountains in Tibet and from ancient temples to gleaming new skyscrapers Make the most of your time with The Rough Guide to China

The Sea and the Second World War Marcus Faulkner, Alessio Patalano, 2019-12-10 An in depth study of World War II's naval operations Rarely does a collection of essays offer so many new and persuasive assessments Well done Professor David Snead Liberty University The sea shaped the course and conduct of World War II from the first moments of the German invasion of Poland on September 1 1939 to the Japanese surrender on September 2 1945 The impact could be felt far beyond the shoreline as the arms and armies carried across the oceans were ultimately destined to wage war ashore Populations and industries depended on the raw materials and supplies in a war that increasingly became a contest of national will and economic might Ultimately it was the war at sea that linked numerous regional conflicts and theaters of operation into a global war As the war grew in complexity and covered an increasingly larger geographical area the organization of the maritime effort and the impact it had on the formulation of national strategy also evolved This volume illustrates the impact of naval operations on the Second World War by highlighting topics previously neglected in the scholarship In doing so it provides new insights into political strategic administrative and operational aspects of the maritime dimension of the war A fine collection of essays by some of the leading scholars in the field The book addresses comprehensively the vital importance of the sea across a range of theaters during the Second World War through a diverse selection of case studies The examinations and re examinations in this volume will be of interest to both scholars and practitioners Dr Steven Paget University of Portsmouth

Contesting Memorial Spaces of Japan's Empire Edward Boyle, Steven Ivings, 2024-09-19 Ongoing arguments over how histories are honoured as evidenced by the conflict between South Korea and Japan over the opening of Tokyo's Heritage Information Centre in June 2020 reveal the extent to which heritage processes enable states to assert legitimacy and power on a global stage Here Contesting Memorial Spaces of Japan's Empire shines a timely spotlight on the complicated histories and disputed legacies of various sites associated with Japan's empire in Asia and the Pacific Bringing together a team of international scholars this transnational study sees contested memorial spaces as windows for us to explore how borders are created moved and altered in everyday life From the Asan Bay Overlook Memorial Wall in Guam and the Puppet Emperor Palace in China to Japan's Ainu Museum and the Cowra War Cemetery in Australia the diverse range of case studies examined here foreground the complex relationship Japan and its neighbours have with their imperial past and reveal how these relations stand at the intersection of individual actions societal choices and memory collectives In doing so this innovative collection of essays bridges history geography and heritage studies to provide an invaluable new approach to the study of imperial conflict and memory politics in modern Japan
