tremendous savings and spectacular supply chain improvements The results often haven't lived up to the claims 2 Many buyers and purchasing managers failing to grasp the potential benefits from e procurement have resisted change and not given their full support to system improvements Those who have delayed have missed the opportunities of vastly improved processes and supplier contributions Both have valid viewpoints but neither has delivered on the true promise of supply chain improvements so the lessons of this book should benefit both Active supporters of e procurement can benefit from understanding the nuts and bolts approach to the fundamental supply management processes in a global context Moreover buyers and their managers with a better vision of the future will be better prepared to adapt to and support the needed changes

Strategic Purchasing and Supply Management Roger Moser, 2007-08-23. Roger Moser analyses the relationships between business priorities and PSM strategy and shows in detail how business strategies influence PSM. He develops a PSM strategy concept which enables supply managers to break down strategic priorities from a business strategy level to a PSM level and to define appropriate actions when dealing with suppliers, supply markets and internal customers.

Implementing Best Purchasing and Supply Management Practices Nancy Y. Moore, 2002. Because the U S Air Force spends over one third of its budget on nonweapons purchased goods and services, such purchases are a prime target area in which to seek performance improvements and cost savings. Prompted by a need for improved performance from its supply base, the Air Force has become increasingly aware of the advantages of using market research, contract consolidation, supply base rationalization and other leading purchasing and supply management PSM practices in its dealings with suppliers. To aid the Air Force in its PSM efforts, RAND examined how innovative commercial firms implement such practices in their purchases of goods and services. After a review of the academic and trade literature, the study team conducted a series of elite interviews using a structured questionnaire to gather primary data from best in class commercial firms. The key findings are that 1) innovative commercial firms are moving to a strategic goal oriented approach to PSM, 2) implementing new PSM practices can take a number of years and often requires significant permanent change throughout the organization, and 3) the Air Force needs strategies to sustain continuity of support for serious PSM change from one leadership team to the next.
