Eighteenth-Century Fiction and the Reinvention of Wonder Sarah Tindal Kareem, 2014-10-23 A footprint materializes mysteriously on a deserted shore a giant helmet falls from the sky a traveler awakens to find his horse dangling from a church steeple Eighteenth century fiction brims with moments such as these in which the prosaic rubs up against the marvelous While it is a truism that the period's literature is distinguished by its realism and air of probability Eighteenth Century Fiction and the Reinvention of Wonder argues that wonder is integral to rather than antithetical to the developing techniques of novelistic fiction Positioning its reader on the cusp between recognition and estrangement between faith and doubt modern fiction hinges upon wonder Eighteenth Century Fiction and the Reinvention of Wonder unfolds its new account of fiction's rise through surprising readings of classic early novels from Daniel Defoe's Robinson Crusoe to Jane Austen's Northanger Abbey and brings to attention lesser known works most notably Rudolf Raspe's Baron Munchausen's Narrative of His Marvellous Travels In this bold new account the eighteenth century bears witness not to the world's disenchantment but rather to wonder's relocation from the supernatural realm to the empirical world providing a reevaluation not only of how we look back at the Enlightenment but also of how we read today

Transatlantic literary studies have provided important new perspectives on North American British and Irish literature They have led to a revision of literary history and the idea of a national literature They have changed the perception of the Anglo American literary market and its many processes of transatlantic production distribution reception and criticism Rather than dwelling on comparisons or engaging with the notion of influence transatlantic literary studies seek to understand North American British and Irish literature as linked with each other by virtue of multi layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times This handbook brings together articles that summarize some of the crucial transatlantic concepts debates and topics The contributions contained in this volume examine periods in literary and cultural history literary movements individual authors as well as genres from a transatlantic perspective combining theoretical insight with textual analysis **Scott's Shadow** Ian Duncan, 2016-08-02 Scott's Shadow is the first comprehensive account of the flowering of Scottish fiction between 1802 and 1832 when post Enlightenment Edinburgh rivaled London as a center for literary and cultural innovation Ian Duncan shows how Walter Scott became the central figure in these developments and how he helped redefine the novel as the principal modern genre for the representation of national historical life Duncan traces the rise of a cultural nationalist ideology and the ascendancy of Scott's Waverley novels in the years after Waterloo He argues that the key to Scott's achievement and its unprecedented impact was the actualization of a realist aesthetic of fiction one that offered a socializing model of the imagination as first theorized by Scottish philosopher and historian David Hume This aesthetic Duncan contends provides a powerful novelistic alternative to the Kantian Coleridgean account of the imagination that has been taken as normative for British Romanticism since the early twentieth century Duncan goes on to examine in detail how other Scottish writers inspired by Scott's innovations James Hogg and John Galt in particular produced in their own novels and tales rival accounts of regional national and imperial history Scott's Shadow illuminates a major but neglected episode of British Romanticism as well as a pivotal moment in the history and development of the novel *James Hogg and British Romanticism* Meiko O'Halloran, 2016-01-26 This study argues for Hogg's centrality to British Romanticism resituating his

work in relation to many of his more famous Romantic contemporaries Hogg creates a unique literary style which the author argues is best described as kaleidoscopic in view of its similarities with David Brewster's kaleidoscope invented in 1816
