

Puritanism Democracy

Milan Zafirovski

Puritanism Democracy:

The Puritan Origins of American Patriotism George McKenna, 2008-10-01 In this absorbing book George McKenna ranges across the entire panorama of American history to track the development of American patriotism That patriotism shaped by Reformation Protestantism and imbued with the American Puritan belief in a providential errand has evolved over 350 years and influenced American political culture in both positive and negative ways McKenna shows The germ of the patriotism an activist theology that stressed collective rather than individual salvation began in the late 1630s in New England and traveled across the continent eventually becoming a national phenomenon Today American patriotism still reflects its origins in the seventeenth century By encouraging cohesion in a nation of diverse peoples and inspiring social reform American patriotism has sometimes been a force for good But the book also uncovers a darker side of the nation s patriotism a prejudice against the South in the nineteenth century for example and a tendency toward nativism and anti Catholicism Ironically a great reversal has occurred and today the most fervent believers in the Puritan narrative are the former outsiders Catholics and Southerners McKenna offers an interesting new perspective on patriotism s role throughout American history and he concludes with trenchant thoughts on its role in the post 9 11 era *The Puritans* David D. Hall, 2021-04-06 Shedding critical new light on the diverse forms of Puritan belief and practice in England Scotland and New England Hall provides a multifaceted account of a cultural movement that judged the Protestant reforms of Elizabeth s reign to be unfinished Provided by publisher **The Protestant Ethic and the Spirit of Authoritarianism** Milan Zafirovski, 2007-08-17 This book explores the historical and contemporary relationships of Protestant Puritanism to political and social authoritarianism It focuses on Puritanism s original subsequent and modern influences on and legacies in political democracy and civil society within historically Puritan Western societies There is emphasis on Great Britain and particularly America from the 17th to the 21st century **The Cambridge Companion to Puritanism** John Coffey, Paul C. H. Lim, 2008-10-09 Puritan was originally a term of contempt and Puritanism has often been stereotyped by critics and admirers alike As a distinctive and particularly intense variety of early modern Reformed Protestantism it was a product of acute tensions within the post Reformation Church of England But it was never monolithic or purely oppositional and its impact reverberated far beyond seventeenth century England and New England This Companion broadens our understanding of Puritanism showing how students and scholars might engage with it from new angles and uncover the surprising diversity that fermented beneath its surface The book explores issues of gender literature politics and popular culture in addition to addressing the Puritans core concerns such as theology and devotional praxis and coverage extends to Irish Welsh Scottish and European versions of Puritanism as well as to English and American practice It challenges readers to re evaluate this crucial tradition within its wider social cultural political and religious contexts Puritanism in the Old World and in the New, from Its Inception in the Reign of Elizabeth to the Establishment of the Puritan Theocracy in New England J.

Gregory,1896 *The Puritans* Perry Miller,Thomas H. Johnson,2014-09-22 Critically acclaimed compilation includes writings by William Bradford Increase Mather William Hubbard Anne Bradstreet and other influential figures The best selection ever made of Puritan literature historian Samuel Eliot Morison *Michael Oakeshott Selected Writings Collection* Michael Oakeshott,2014-08-26 A collection of 6 volumes of Oakeshott s work Notebooks 1922 86 Early Political Writings 1925 30 The Concept of a Philosophical Jurisprudence Vocabulary of a Modern European State Lectures in the History of Political Thought and What is History *The 'Puritan' Democracy of Thomas Hill Green* Alberto de Sanctis,2016-12-15 The central concern of this book is to demonstrate how Puritanism was a theme which ran through all Green s biography and political philosophy It thereby reveals how Green s connections with Evangelicalism and his known affinities with religious dissent came from his way of conceiving Puritanism In Green s eyes its anti formalist viewpoint made Puritanism the most suitable tool for avoiding the drawbacks of democracy The key objective of the book is to illustrate how the philosophy elaborated by Green aimed to encapsulate the best of Puritanism whilst eschewing the dangerous abstractions of both Puritan philosophy and German idealism It follows that Green s conception of positive and negative freedom and his vision of political obligation stemmed from his effort to revive the Puritan heritage rather than from an ambiguous flirtation with idealism The book purports to show how the influence of Puritanism in Green s political thought is an element which can help to integrate the literature in the area contributing to a better comprehension of a philosopher who despite being unanimously considered as the founder of the so called Oxford idealist school had a very difficult and sometimes obscure connection with idealism It has been widely argued that Green s relationship with idealism seemed to be infected by a religious germ which because it was unrelated to German idealism gave it a bad taste This study aims to encourage further investigation into the nature and propagation of that germ in the British idealist School *Puritanism and Democracy* Ralph Barton Perry,1964

Social Problems and Policy During the Puritan Revolution Margaret James,2020-12-16 Originally published in 1930 and reprinted in 1966 this book focusses on the social and economic developments of the Puritan revolution aspects which are often overlooked in favour of the political Using archival resources this study shows that the period 1640 1660 was one of change and experiment in the social as well as political sphere Particular focus is given to the depression in industry and agriculture and the resultant increase in poverty and unemployment The extent to which the traditional authority of church and state was weakened is also discussed *The Call to Happiness* Nathaniel A. Warne,2019-12-12 In *The Call to Happiness* Nathaniel A Warne examines how sixteenth and seventeenth century Puritans adopted a eudaimonistic conception of ethics in their writings He shows how classical eudaimonism within the Puritan context is related to other areas of theology ethics and politics and that the idea of divine calling or vocation fits within Puritan eudaimonism Warne further shows how work can also be understood as an aspect of human flourishing when illuminated from within this tradition of Christian eudaimonism alongside the doctrine of calling *American Thought from Puritanism to Pragmatism* Woodbridge Riley,1915

Code Name Puritan Greg Barnhisel, 2024-10-08 An insightful biography of an unassuming literary scholar and spy who transformed postwar American culture Although his impact on twentieth century American cultural life was profound few people know the story of Norman Holmes Pearson Pearson's life embodied the Cold War alliances among US artists scholars and the national security state that coalesced after World War II As a Yale professor and editor he helped legitimize the study of American culture and shaped the public's understanding of literary modernism significantly the work of women poets such as Hilda Doolittle and Gertrude Stein At the same time as a spy recruiter and cultural diplomat he connected the academy the State Department and even the CIA In *Code Name Puritan* Greg Barnhisel maps Pearson's life from his childhood injury that led to a visible permanent disability to his wartime counterespionage work neutralizing the Nazis spy network to his powerful role in the cultural and political heyday sometimes called the American Century Written with clarity and informed by meticulous research Barnhisel's revelatory portrait of Pearson details how his unique experiences shaped his beliefs about the American character from the Puritans onward

Puritanism in the South J. Edward Kirbye, 1908

The Destiny of Modern Societies Milan Zafirovski, 2009 This book is a sociological analysis of the relationship between modern society in particular America and Calvinism in the Weberian tradition While the book continues this tradition it further expands elaborates on and goes beyond earlier sociological analyses The book examines the impact of Calvinism on modern society as a whole thus extending elaborating on and going beyond the previous analyses of the influence of the Calvinist religion only on the capitalist economy It analyzes how Calvinism has determined most contemporary social institutions including political civic cultural and economic in its respective societies particularly through its derivative Puritanism America For that purpose the book applies the idea of the destiny of societies or nations to American society in particular It argues demonstrates and illustrates the Calvinist societal predestination through the Puritan determination of American society

Puritanism in Seventeenth-century Massachusetts David D. Hall, 1968

Studies of the Church in History Horton Davies, 1983-01-01

Pittsburgh Theological Monograph New Series General Editor Dikran Y Hadidian

The Protestant Ethic in Hungary Attila K. Molnár, 2024-04-15 While in the 16-17th centuries about the two thirds of the Hungarians belonged to the Reformed Church the presence of the spirit of capitalism and the protestant ethic is rather questionable The Calvinists did not play a different or decisive role in the capitalization process of Hungary at the end of the 19th century The historical analysis focuses on the puritan doctrines can be found in the religiosity of Hungarian puritans and Reformed people in the 17th century The Hungarian Protestant ethic differs from Weber's ideal type in two respects the Hungarian version is more pietistic less activist and it seems to have less practical influence in everyday life because of the weak religiosity The Hungarian case does not refute Weber's thesis but it calls the attention to two important parts of historical analysis the reinterpreting selecting procedure in social context and the intensity of religiosity

Tudor Ideals Lewis Einstein, 1921

Blue Collar, Theoretically John F. Lavelle, 2011-11-28 Though Marxism is the dominant philosophical theory applied to

class in academia its real life inconsistencies particularly stereotyping have troubling effects on working class studies As a result of its hegemony alternative discourses have been effectively shut out of the academic world This critical work seeks to establish a new philosophy of class drawing on disciplines as diverse as sociology cognitive science anthropology and psychology and applying a decidedly Weberian hermeneutical lens Topics covered include a detailed exploration of Marxism a review of working class literature post marxist theories of class and the future of the field
