Purloined Letters Originality And Repetition In American Literature:

Purloined Letters Joseph N. Riddel, 1995 A collection of six essays three previously unpublished forming a meditation on the theory of a specifically American literature Riddel explores cardinal oppositions creation versus representation poetry versus criticism geography versus ego graphy through an examination of classic 19th c American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s American Literature and the Culture of Reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights **Handbook of American**

Romanticism Philipp Löffler, Clemens Spahr, Jan Stievermann, 2021-07-05 The Handbook of American Romanticism presents a comprehensive survey of the various schools authors and works that constituted antebellum literature in the United States The volume is designed to feature a selection of representative case studies and to assess them within two complementary frameworks the most relevant historical political and institutional contexts of the antebellum decades and the consequent re appropriations of the Romantic period by academic literary criticism in the twentieth and early twenty first centuries

Writing beyond Prophecy Martin Kevorkian, 2013-01-02 Writing beyond Prophecy offers a new interpretation of the American Renaissance by drawing attention to a cluster of later rarely studied works by Ralph Waldo Emerson Nathaniel Hawthorne and Herman Melville Identifying a line of writing from Emerson's *Conduct of Life* to Hawthorne's posthumously published *Elixir of Life* manuscript to Melville's *Clarel A Poem* and *Pilgrimage in the Holy Land* Martin Kevorkian demonstrates how these authors wrestled with their vocational calling Early in their careers these three authors positioned their literary pursuits as an alternative to the ministry By presenting a new revelation and a new set of gospels for the nineteenth century they sought to usurp the authority of the pulpit Later in life each writer came to recognize the audacity of

his earlier work creating what Kevorkian characterizes as a literary aftermath Strikingly each author later wrote about the character of a young divinity student torn by a crisis of faith and vocation Writing beyond Prophecy gives a distinctive shape to the late careers of Emerson Hawthorne and Melville and offers a cohesive account of the lingering religious devotion left in the wake of American Romanticism

The Fiction of America Susanne Hamscha, 2013-05 The Fiction of America juxtaposes classic literature of the American Renaissance with twentieth century popular culture pairing for instance Ralph Waldo Emerson with Finding Nemo Walt Whitman with Spiderman and Hester Prynne with Madonna to investigate how the Americanness of American culture constitutes itself in the interplay of the cultural imaginary and performance

Conceptualizing America as a transhistorical practice Susanne Hamscha reveals disruptive spectral moments in the narrative of America which confront American culture with its inherent inconsistencies

Emerson and the Climates of History Eduardo Cadava, 1997 This book brings together a wide range of materials from history religion philosophy horticulture and meteorology to argue that Emerson articulates his conception of history through the language of the weather Focusing on Emerson's persistent use of climatic and meteorological metaphors the book demonstrates that Emerson's reflections on the weather are inseparable from his preoccupation with the central historical and political issues of his day The author suggests that Emerson's writings may be read as both symptomatic and critical of the governing rhetorics through which Americans of his day thought about the most important contemporary issues and that what has often been seen as Emerson's retreat from the arena of history into the domain of spirit is in fact an effort to re-treat or rethink the nature of history in terms of questions of representation What distinguishes this book from the work of other critics who are reassessing Emerson's relation to history is its attempt to think through the way in which the figures of Emerson's rhetoric figures like frost snow the auroras and nature in general which often seem to have nothing to do with either history or politics are themselves traversed by the conflictual histories of slavery race destiny revolution and the meaning of America It differs that is in proposing a textual model for reading Emerson that measures his engagement with changing historical and political relations in terms of the way he works to revise the language he inherits There can be no reading of Emerson the author suggests that does not trace the movement of his figures and tropes as they become something else as they open onto questions of history

Rewriting Christian Moraru, 2001-09-20 Does the postmodern process of rewriting stories by earlier writers point to a crisis of originality in our cloning culture In Rewriting the first systematic examination of this tendency in late twentieth century American fiction Christian Moraru answers this question with a no by examining a wide range of representative writers including E L Doctorow Robert Coover Paul Auster Charles Johnson Ishmael Reed Trey Ellis Kathy Acker Mark Leyner and Bharati Mukherjee among others Moraru shows that in reworking the emblematic nineteenth century short stories and novels of Hawthorne Poe Melville Alger Stowe Thoreau Twain and others postmodern American writers take on and critically revise a whole set of values and notions that shape our cultural mythology Accordingly Moraru redefines

postmodernism in general and postmodern rewriting in particular as a culturally innovative and politically enabling phenomenon

Original Copy Robert Macfarlane, 2007-03-08 Originality is only plagiarizing from a great many remarked Rupert Brooke stealing the line from Voltaire Questions of originality and accusations of plagiarism are as old as literature but different literary cultures have interpreted the relationship between originality and plagiarism in startlingly dissimilar ways Original Copy investigates and documents the drastic reappraisal of literary originality and plagiarism which occurred over the course of the nineteenth century from the heroic visions of original authorship that characterised the 1820s and 1830s through to the stickle brick creativity of Oscar Wilde and Lionel Johnson at the century's end It reveals how ideas of originality and plagiarism were not only a theoretical concern of Victorian commentators on literature but also provided many important Victorian writers Eliot Dickens Reade Pater Wilde and Lionel Johnson among them with a creative resource Moving between numerous different fields of thought and knowledge literary criticism the history of science manuscript culture anthropology and written in a supple and elegant style this book shows that the ideas of originality and plagiarism were the subjects of nineteenth century literature as well as what it was subject to

Steinbeck's Typewriter Robert DeMott, 2012-10-17 Steinbeck's Typewriter Essays on His Art collects several of DeMott's finest essays on Steinbeck that are so carefully revised as to warn other critics seeking their own collected essay volume of the difference between a genuinely lapidary compilation and a kitchen midden Illustrated with some rare photos this collection is especially notable John Ditsky Choice Steinbeck's Typewriter stands as the most in depth treatment of Steinbeck's aesthetics particularly in its exploration of the author's interior spaces and creative habits elements of Steinbeck's artistry which have not only been underestimated but woefully ignored Stephen George Steinbeck Review

Critical Synoptics Carter Kaplan, 2000 At once appealing to specialists in literary criticism philosophy satire American and British Romanticism and the study of science and literature this book advances beyond the frontiers of the established professional cultures of knowledge to make a forceful statement of humanistic understanding

BOOK JACKET Representing the Contemporary North American Family Sophie Chapuis, Marie Moreau, 2021-08-06 The rise in individualism and the growing liberalism of family law may be seen as potential threats to the family as a unit Currently defenders of traditional family models are being forced to accept a more fluid definition of family as an intrinsic heterogeneous unit Central to this book is the idea that the family as a social unit around which society is structured still plays a pivotal role in North America States courts and political parties have had to address the major mutations of the family landscape in the last decades The family is instrumental in reorganizing communities in migration contexts and is a key component of political strategies The way family is staged in the press on social media and in TV shows reflects the fast changing patterns and new realities of North American families and offers alternatives to hegemonic representations of normative families It also ranks high among current literary obsessions since it is the privileged receptacle for contemporary anxieties and operates both as an ideal retreat or an alienating space The proliferation of family narratives

in their ever shifting forms reveals that family has boundless potential for fiction and continues to run deep in the North American imaginary This book gathers together approaches that range from field study sociology politics media studies and literature The contributions here show the centrality of the family both as an individual unit and as social political legal and fictional constructs *Hawthorne* Brenda Wineapple,2012-01-11 Handsome reserved almost frighteningly aloof until he was approached then playful cordial Nathaniel Hawthorne was as mercurial and double edged as his writing Deep as Dante Herman Melville said Hawthorne himself declared that he was not one of those supremely hospitable people who serve up their own hearts delicately fried with brain sauce as a tidbit for the public Yet those who knew him best often took the opposite position He always puts himself in his books said his sister in law Mary Mann he cannot help it His life like his work was extraordinary a play of light and shadow In this major new biography of Hawthorne the first in more than a decade Brenda Wineapple acclaimed biographer of Janet Flanner and Gertrude and Leo Stein Luminous Richard Howard brings him brilliantly alive an exquisite writer who shoveled dung in an attempt to found a new utopia at Brook Farm and then excoriated the community or his attraction to it in caustic satire the confidant of Franklin Pierce fourteenth president of the United States and arguably one of its worst friend to Emerson and Thoreau and Melville who unlike them made fun of Abraham Lincoln and who also unlike them wrote compellingly of women deeply identifying with them he was the first major American writer to create erotic female characters Those vibrant independent women continue to haunt the imagination although Hawthorne often punishes humiliates or kills them as if exorcising that which enthralls Here is the man rooted in Salem Massachusetts of an old pre Revolutionary family reared partly in the wilds of western Maine then schooled along with Longfellow at Bowdoin College Here are his idyllic marriage to the youngest and prettiest of the Peabody sisters and his longtime friendships including with Margaret Fuller the notorious feminist writer and intellectual Here too is Hawthorne at the end of his days revered as a genius but considered as well to be an embarrassing puzzle by the Boston intelligentsia isolated by fiercely held political loyalties that placed him against the Civil War and the currents of his time Brenda Wineapple navigates the high tides and chill undercurrents of Hawthorne s fascinating life and work with clarity nuance and insight The novels and tales the incidental writings travel notes and children s books letters and diaries reverberate in this biography which both charts and protects the dark unknowable core that is quintessentially Hawthorne In him the quest of his generation for an authentically American voice bears disquieting fruit **Uncertain Chances** Maurice S. Lee,2013-06-06 Maurice Lee s study illustrates how writers such as Poe Melville Douglass Thoreau Dickinson and others participated in a broad intellectual and cultural shift in which Americans increasingly learned to live with the threatening and wonderful possibilities of chance Ambassadors of Culture Kirsten Silva Gruesz,2020-11-10 This polished literary history argues forcefully that Latinos are not newcomers in the United States by documenting a vast network of Spanish language cultural activity in the nineteenth century Juxtaposing poems and essays by both powerful and peripheral writers Kirsten

Silva Gruesz proposes a major revision of the nineteenth century U S canon and its historical contexts Drawing on previously unpublished archival materials and building on an innovative interpretation of poetry s cultural role *Ambassadors of Culture* brings together scattered writings from the borderlands of California and the Southwest as well as the cosmopolitan exile centers of New York New Orleans and San Francisco It reads these productions in light of broader patterns of relations between the U S and Latin America moving from the fraternal rhetoric of the Monroe Doctrine through the expansionist crisis of 1848 to the proto imperialist 1880s It shows how ambassadors of culture such as Whitman Longfellow and Bryant propagated ideas about Latin America and Latinos through their translations travel writings and poems In addition to these well known figures and their counterparts in the work of nation building in Cuba Mexico and Central and South America this book also introduces unremembered women writers and local poets writing in both Spanish and English In telling the almost forgotten early history of travels and translations between U S and Latin American writers Gruesz shows that Anglo and Latino traditions in the New World were from the beginning deeply intertwined and mutually necessary *Pragmatist Realism* Sămi Ludwig,2002 Ludwig English U of Berne Switzerland argues that the artistic quality of American realist texts such as those written by Mark Twain William Dean Howells and Henry James is best appreciated by approaching them from a cognitive perspective rather than from a linguistic or formalistic one Annotation copyrighted by Book News Inc Portland OR

The Work of Mourning Jacques Derrida,2003-09-15 Jacques Derrida is in the words of the New York Times perhaps the world s most famous philosopher if not the only famous philosopher He often provokes controversy as soon as his name is mentioned But he also inspires the respect that comes from an illustrious career and among many who were his colleagues and peers he inspired friendship *The Work of Mourning* is a collection that honors those friendships in the wake of passing Gathered here are texts letters of condolence memorial essays eulogies funeral orations written after the deaths of well known figures Roland Barthes Paul de Man Michel Foucault Louis Althusser Edmond Jab s Louis Marin Sarah Kofman Gilles Deleuze Emmanuel Levinas Jean Fran ois Lyotard Max Loreau Jean Marie Benoist Joseph Riddel and Michel Servi re With his words Derrida bears witness to the singularity of a friendship and to the absolute uniqueness of each relationship In each case he is acutely aware of the questions of tact taste and ethical responsibility involved in speaking of the dead the risks of using the occasion for one s own purposes political calculation personal vendetta and the expiation of guilt More than a collection of memorial addresses this volume sheds light not only on Derrida s relation to some of the most prominent French thinkers of the past quarter century but also on some of the most important themes of Derrida s entire oeuvre mourning the gift of death time memory and friendship itself In his rapt attention to his subjects work and their influence upon him the book also offers a hesitant and tangential retelling of Derrida s own life in French philosophical history There are illuminating and playful anecdotes how Lyotard led Derrida to begin using a word processor how Paul de Man talked knowledgeably of jazz with Derrida s son Anyone who still thinks that Derrida is a facetious punster will find such resentful

Performing Ethnicity, Performing Gender Bettina Hofmann, Monika Mueller, 2016-09-01 Performance and performativity are important terms for a theorization of gender and race ethnicity as constitutive of identity This collection reflects the ubiquity diversity and historical locatedness of ethnicity and gender by presenting contributions by an array of international scholars who focus on the representation of these crucial categories of identity across various media including literature film documentary and music video performance The first section Political Agency stresses instances where the performance of ethnicity gender ultimately aims at a liberating effect leading to more autonomy The second section Diasporic Belonging explores the different kinds of negotiations of ethnic performances in multi ethnic contexts The third part Performances of Ethnicity and Gender scrutinizes instances of the combined performance of ethnicity and gender in novels films and musical performances The last section Cross Ethnic Traffic contains a number of contributions that are concerned with attempts at crossing over from one ethnicity into another by way of performance *American Terror* Paul Hurh, 2015-06-09 If America is a nation founded upon Enlightenment ideals then why are so many of its most celebrated pieces of literature so dark American Terror returns to the question of American literature's distinctive tone of terror through a close study of three authors Jonathan Edwards Edgar Allan Poe and Herman Melville who not only wrote works of terror but who defended theorized and championed it Combining updated historical perspectives with close reading Paul Hurh shows how these authors developed terror as a special literary affect informed by the way the concept of thinking becomes in the wake of Enlightenment empiricism increasingly defined by a set of austere mechanic processes such as the scientific method and the algebraic functions of analytical logic Rather than trying to find a feeling that would transcend thinking by subtending reason to emotion these writers found in terror the feeling of thinking the peculiar feeling of reason's authority over emotional schemes In so doing they grappled with a shared set of enduring questions What is the difference between

thinking and feeling Why does it seem impossible to reason oneself out of an irrational fear And what becomes of the freedom of the will when we discover that affects can push it around
