E. Batchelor, Miguel Ángel San José, 2003-08-07 This book first published in 2003 provides a comprehensive and structured vocabulary for all levels of undergraduate Spanish courses. It offers a broad coverage of the concrete and abstract vocabulary relating to the physical, cultural, social, commercial and political environment as well as exposure to commonly encountered technical vocabulary. The accompanying exercises for private study and classroom use are designed to promote precision and awareness of nuance and register, develop good dictionary use and encourage effective learning. The book includes both Iberian and Latin American vocabulary and clearly identifies differences between the two varieties. Consists of twenty units each treating a different area of human experience. Units are divided into three levels which allows core vocabulary in each area to be learned first and more specialised or complex terms to be added at later stages. Vocabulary is presented in alphabetical order for ease of location [Latin American Readings for a Cultural Age](#) E. Santi, 2016-10-18 Gathered in one volume are seven of the best essays written in the last fifteen years or so by the eminent Latin Americanist Enrico Mario Sant. The essays cover a wide range of topics in Latin American poetry, narrative, film and intellectual history and also explore Spanish Peninsular subject matter: the Spanish Generation of 98's response to Spain's loss of Cuba in the Spanish American War of 1898. The essays are introduced by a long text in which the author develops a bracing critique of some dominant trends in current critical practice and spells out an alternative methodology.
