Riding the Limiteds' Locomotives Howard G. Hill,1972 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1975 *Twentieth Century Limited* Douglass C. Horstman,2009-09-29 Seventeen year old Henry Horstman was one of 1 4 million Germans who braved the Atlantic Ocean to immigrate into the United States during the 1880s with the hope of achieving a better life Twentieth Century Limited details the compelling life story of Horstman who pursued his boyhood dream in one of the most dangerous industries in America only to lose it in the prime of his life Douglass Horstman the grandson of Henry Horstman draws on memories and historical accounts as he chronicles his grandfathers fascinating lebensgeschichte life story while also highlighting the carnage on the rails that devastated the lives of thousands of railroad workers and their families during a time when railroad corruption was rampant As a youth in Germany Henry was faced with the possibility of conscription into the Prussian Army but chose instead to follow the example of his uncle a lokomotivfuhrer engineer in America The author pieces together a captivating story that follows Henry from his Prussian youth to his first steps onto American soil and his fateful job on a railroad in upstate New York At a time when thousands of trainmen were being killed or injured Henry Horstman displayed insurmountable determination and courage turning his journey through life and on the rails into an inspiring biography **Trains** ,1962 *BR Swindon Type 1 0-6-0 Diesel-Hydraulic Locomotives—Class 14* Anthony P. Sayer,2022-08-09 A pictorial survey of the Class 14 locomotives twenty year history in British industry In 1957 the Western Region of British Railways identified a need for 400 Type 1 diesel locomotives for short haul freight duties but it was 1964 before the first was introduced General purpose Type 1s were being delivered elsewhere but WR management regarded these as too expensive for their requirements After completion of design work on the Western locomotives Swindon turned to creating a cheap no frills Type 1 At 65% of the cost of the Bo Bo alternative the Swindon 0 6 0 represented a better fit for the trip freight niche Since 1957 the privatised road haulage industry had decimated BR s wagon load sector whilst the 1962 Transport Act released BR from its financially debilitating public service obligations the damage had been done and the 1963 Beeching Plan focused on closing unprofitable routes and associated services By 1963 the original requirement for 400 Type 1s had been massively reduced Fifty six locomotives were constructed in 1964 65 Continuing traffic losses resulted in the whole class becoming redundant by 1969 Fortunately a demand for high powered diesels on the larger industrial railway systems saw the bulk of the locomotives finding useful employment for a further twenty years This companion book to *Their Life on British Railways* provides an extensive appraisal of *Their Life in Industry* for the forty eight locomotives which made the successful transition after withdrawal from BR in 1968 69 Inside is the most extensive published work on Class 14s in industry with illustrations tabulated data complete dates and records plus information and maps about the coal and steel sites at which they worked *Comprehensive Trackside* magazine The amount of detail and level of research is impressive and this series of books is invaluable for anyone interested
