Parties, Candidates, and

Constituency Campaigns in Canadian Elections Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level. With its unique micro level focus, *Parties, Candidates and Constituency Campaigns in Canadian Elections* provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada. By taking a detailed look at campaigns in seven B.C. ridings during the 1988 free trade election, the last under the old three party system, Anthony Sayers develops a typology of candidates and campaigns. The dynamics of local associations, nominations and campaigns, including those of former prime minister Kim Campbell and New Democrat Svend Robinson, as well as key strategic events and the role of the media, are reconstructed from interviews with candidates, campaign managers, party strategists, volunteers and journalists. The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system. This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian politics, its underlying social basis and the factors that determine successful election campaigns. As such, *Parties, Candidates and Constituency Campaigns in Canadian Elections* will intrigue not only political scientists and students of Canadian politics but also election candidates and party strategists. Pro-Family Politics and Fringe Parties in

Canada Chris MacKenzie, 2014-05-14 *Pro Family Politics and Fringe Parties in Canada* explores the organizational and ideological nature of political parties that are initially formed to do the work of social movements. Specifically, it examines the development of the Family Coalition Party of British Columbia (FCP) from its origins as a group of alienated Social Credit Party members to its rebirth as the Unity Party of British Columbia and through its struggles as a marginal political entity along the way. While addressing the FCP's relationship to the larger North American pro family movement, Chris MacKenzie also deftly demonstrates how the party can be seen as organizationally congruent with its ideological antithesis, the Green Party. Basing his findings on seven years of field research, he identifies the obstacles that political parties involved in social

movement work must overcome in order for them to achieve their goals He concludes that despite their invaluable contribution to democracy such party movements have limited political institutionalization Consequently their only realistic goal may be to merge their ideals with those of another larger political body This book makes a substantial contribution to our understanding of the genesis development and impact of political party movements in Canada Moreover it provides useful insight into the dynamics and issues that make up the current pro family movements in Canada and the United States
