The first part of the volume deals directly with early modern Christian mysticism and more specifically with the French spiritualit and discussions centered around the problem of what it means to love God in a pure radically unselfish way The second part explores the paradoxical dialectics between self and selflessness in relation to the way Christian religion deals with its own identity If Christian love is selfless why has Christianity in the end not given up its own self its own identity The third and last part of the volume discusses the dialectics between self and selflessness in three other domains popular spirituality politics and modern science It makes clear that selflessness is not limited to mysticism but is both a fascination and a problem paradox for modernity in many fields The Old French William of Tyre Philip D. Handyside, 2015-01-27 William of Tyre's history of the Kingdom of Jerusalem has long been viewed as one of the most useful sources for the Crusades and the Latin East from the beginnings of the First Crusade to William's death shortly before Saladin's conquest of Jerusalem However this text was most popular during the medieval period in an Old French translation In The Old French of William of Tyre Philip Handyside identifies the differences between

the Latin and French texts and analyses the translator motives for producing the translation and highlights significant changes that may provide a better understanding of the period in question Handyside also argues for a complex manuscript tradition that developed across the medieval Mediterranean **Histoire de L'école D'Alexandrie** Jules Simon,1845
