Rietmeyer ,1999 *American Art Directory 1997-98* Bowker Editorial Staff,Reed Reference Publishing,R R Bowker Publishing,1997-04 **Jews in Business and Their Representation in German Literature, 1827-1934** John Ward,2010 The emancipation of Jews that commenced in Germany in the early 19th century pushed many Jews into urban commerce industries and intellectual professions The ongoing modernization and the Jewish prominence in business brought about an anti Jewish reaction Jews were seen as the incarnation of the new materialistic Zeitgeist dishonest merchants pursuing non German business practices and usurpers of economic power The Jews represented an alien unwanted economic system The backlash against the Jewish businessman was reflected in contemporary literature from Wilhelm Hauff s *Jud S* 1827 to the Nazi novel *Shylock unter Bauern* by Felix Nabor 1934 Examines the representation of the Jewish businessman in German literature in both antisemitic works and apologetic ones Two schools of thought can be discerned in these writings that the Jews including the businessmen can be corrected and assimilated into the German nation e g in Freytag s *Soll und Haben* 1855 and the racist and eliminationist conception of the Jews as unassimilable and inherently detrimental aliens who have to be removed from the body of the nation as in Wilhelm von Polenz s *Der B ttnerbauer* 1895 with Heinrich Mann s anti Jewish writings somewhere in between Discusses also the ambivalent stance of Theodor Fontane Dwells on two cautionary tales written by Jewish authors and addressed to the Jews the novel *Jud S* by Feuchtwanger 1925 and the play *Jud S* by Paul Kornfeld 1929 as well as responses to antisemitism addressed to a general audience *Der neue Ahasver* by Fritz Mauthner 1881 *Ren Richter* by Lothar Brieger Wasservogel 1906 and Hermann Bahr s *Die Rotte Korahs* 1919 a philosemitic non Jewish response *Aesthetic Conflict and the Evolution of a Riot* B. Marie Brady-Whitcanack,2011-02-24 The text is a hermeneutic and field theory analysis of events that occurred during the first of two doctoral degree programs at a major state university The study considers challenges to traditional curriculum in higher education and possible links to conflicts occurring at some major university campuses *States, Debt, and Power* Kenneth Dyson,2014-06-19 *States Debt and Power* argues for the importance of situating our contextually influenced thinking about European states and debt within a commitment to historically informed and critical analysis It teases out certain broad historical patterns The book also examines the inescapably difficult and contentious judgements about bad and good debt about what constitutes sustainable debt and about distributive justice at times of sovereign debt crisis These judgements offer insight into the nature of power and the contingent nature of sovereign creditworthiness Three themes weave through the book the significance of creditor debtor state relations in defining asymmetry of power the context specific and constructed character of debt above all in relation to war and the limitations of formal economic reasoning in the face of radical uncertainty Part I examines case studies from Ancient Greece to the modern Euro Area and brings together a wealth of historical data that cast fresh light on how sovereign debt problems are debated and addressed Part II looks at the conditioning and constraining framework of law

culture and ideology and their relationship to the use of policy instruments Part III shows how the problems of matching the assumption of liability with the exercise of control are rooted in external trade and financial imbalances and external debt in financial markets and vulnerability to banking crisis in the character of the private governance of public debt in who has power over indicators of sustainability in domestic institutional and political arrangements and in sub national fiscal governance Part IV looks at how the problems of mismatch between liability and control take on an acute form within the historical context of European monetary union above all in Euro Area debt crises
