**The Written Dead** Kyle William Bishop, Angela Tenga, 2017-06-29 From Victor Halperin's *White Zombie* 1932 to George A Romero's landmark *Night of the Living Dead* 1968 and AMC's hugely successful *The Walking Dead* 2010 zombie mythology has become an integral part of popular culture In a reversal of the typical pattern of adaptation the zombie developed onscreen before appearing in short stories and comic books during the 20th century and more recently as subjects of more traditional novels This collection of new essays examines some of the most influential and inventive zombie literature from the early stories to the most recent narratives including some told from a zombie perspective

**Curating and Re-Curating the American Wars in Vietnam and Iraq** Christine Sylvester, 2019-03-04 We have long saved and curated objects from wars to commemorate the war experience These objects appear at national museums and memorials and are often mentioned in war novels and memoirs Through them we institutionalize narratives and memories of national identity as well as international power and purpose While people interpret war in different ways and there is no ultimate authority on the experiences of any war curators of war objects make different choices about what to display or write about none of which are entirely problematic good or accurate This book asks whose vantage points on war are made available and where for public consumption it also questions whose war experiences are not represented are minimized or ignored in ways that advantage contemporary militarism Christine Sylvester looks at four sites of war memory the National Museum of American History the Vietnam Veterans Memorial Arlington National Cemetery and selected novels and memoirs of the American wars in Vietnam and Iraq to consider the way war knowledge is embedded in differing sites of memory and display While the museum shows war aircraft and a laptop computer used by a journalist covering the American war in Iraq visitors to the Vietnam Memorial or Arlington Cemetery find more prosaic and civilian items on view such as baby pictures slices of birthday cake or even car keys In addition memoirs and novels of these wars tend to curate ghastly horrors of wars as experienced by soldiers or civilians For Sylvester these sites of war memory and curation provide ways to understand dispersed war authority and interpretation and to consider which sites invite viewers to revere a war and which reflect personal experiences that show the undersides of these wars Sylvester shows that scholars policymakers and other citizens need to consider different types of situated memory and knowledge in order to fully grasp war rather than idealize it

**The People's Right to the Novel** Eleni Coundouriotis, 2014-09-15 This study offers a literary history of the war novel in

Africa Coundouriotis argues that this genre aimed more specifically at African readers than the continent's better known bildungsroman tradition nevertheless makes an important intervention in global understandings of human rights The African war novel lies at the convergence of two sensibilities it encounters in European traditions the naturalist aesthetic and the discourse of humanitarianism whether in the form of sentimentalism or of human rights law Both these sensibilities are present in culturally hybrid forms in the African war novel reflecting its syncretism as a narrative practice engaged with the colonial and postcolonial history of the continent The war novel Coundouriotis argues stakes claims to collective rights that contrast with the individualism of the bildungsroman tradition The genre is a form of people's history that participates in a political struggle for the rights of the dispossessed

**The Deadly Brotherhood** John McManus, 2003-08-26 In his book *Men Against Fire* historian S L A Marshall asserted that only 15 to 25 percent of American soldiers ever fired their weapons in combat in World War II Shooting at the enemy made a man part of the team or brotherhood There were of course many times when soldiers did not want to shoot such as at night when they did not want to give away a position or on reconnaissance patrols But in the main no combat soldier in his right mind would have deliberately sought to go through the entire war without ever firing his weapon because he would have been excluded from the brotherhood but also because it would have been detrimental to his own survival One of rifle company commander Harold Leinbaugh's NCOs summed it up best when discussing Marshall Did the SOB think we clubbed the Germans to death

**Tolstoy's Major Fiction** Edward Wasiolek, 1978 Edward Wasiolek after much valuable work on Dostoevsky has now written one of the best books on Tolstoy in recent decades. This may be in part because of his preoccupation with Tolstoy's most challenging contemporary and the resulting sense of their unlikeness in a common pursuit. But there are other unspeculative reasons. Few studies of Tolstoy have been so carefully pondered and so firmly organized to convince and not so many show the flexibility and variety of its approach. Wasiolek proposes an essentially simple and consistent reading but he advances it with subtlety and discretion. Henry Gifford *Times Literary Supplement*
