Counter-Reformation Rome Frederick J. McGinness, 2014-07-14 At the end of the sixteenth century when painters writers and scientists from all over Europe flocked to Rome for creative inspiration the city was also becoming the center of a vibrant and assertive Roman Catholic culture Closely identified with Rome the Counter Reformation church sought to strengthen itself by building on Rome's symbolic value and broadcasting its cultural message loudly and skillfully to the European world In a book that captures the texture and flavor of this rhetorical strategy Frederick McGinness explores the new emphasis placed on preaching by Roman church leaders Looking at the development of a sacred oratory designed to move the heart he traces the formation of a long-lasting Catholic worldview and reveals the ingenuity of the Counter Reformation in the transformation of Renaissance humanism McGinness not only describes the theory of sermon writing but also reconstructs the circumstances social and physical in which sermons were delivered The author considers how sermons blended spirituality with pious legends for example stories of the early martyrs and evocative metaphors to fashion a *respublica christiana* of loyal Catholics Preachers projected a right view of history social relationships and ecclesiastical organization while depicting a spiritual topography upon which Catholics could chart a path to salvation At the center of this topography was Rome a vast stage set for religious pageantry which McGinness brings to life as he follows the homiletic representations of the city from a bastion of Christian militancy to a haven of harmony light and tranquility Originally published in 1995 The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to
