*Rights Guide to Non-means-tested Benefits* Duleep Allirajah, Kenny McIntyre, Susan Mitchell, 1998      **Social Security Law in Context** Neville S. Harris, 2000 The social security system of Great Britain has reached a crossroads following the election of a Labour Government promising a New Age of welfare and seemingly prepared to think the unthinkable on welfare reform at a time when public expenditure on welfare benefits has reached nearly 100 billion per annum In 1985 the Conservative s Green Paper on social security reform announced that the benefits system had lost its way Attempts were made to curb benefits expenditure and reduce welfare dependency for example through better targeting of needs the reinforcement of personal and family responsibility and tighter administrative controls The ten years from 1988 to 1998 saw the introduction of many new benefit schemes including income support family credit the social fund disability living allowance incapacity benefit and jobseeker s allowance as well as the increasing influence of European Law Yet the system achieves too little according to the new Government s Green Paper on welfare reform which promises a new contract between the citizen and the Government based on responsibilities and rights The precise form these responsibilities and rights will take remains unknown although we already have schemes like the New Deal and proposals for stakeholder pensions Meanwhile social security law continues to impact upon the lives of millions of citizens After ten years of major legislative change and with the prospect of a new direction this is a time to take stock and to analyse the social and legal impact of the past decade s legislation case law and policy as well as considering possible reforms The book s approach is to organise this task thematically particularly with regard to the social context to social security through discrete chapters on for example gender and the family disability housing old age and unemployment It is also opportune to examine the theoretical framework of state welfare and social security particularly in the context of social rights The book aims to provide an authoritative contextual and critical account of how British social security law has evolved how it operates its substance and its social effects      **Services for People with Learning Disabilities** Nigel Malin, 2002-11-01 Services for People with Learning Disabilities provides a broad review of available services for people with learning disabilities It describes the present network of services and explains the NHS and Community Care Act 1990 in terminology accessible to health care professionals and others engaged in this area It looks in detail at the concepts underpinning new legislation including care management and assessment quality and inspection and inter agency planning and it supplies up to date information on current topics such as advocacy and empowerment and recreation and leisure An invaluable resource for all practitioners in health and community care Services for People with Learning Disabilities will also give professionals and carers a much greater understanding of the changes and improvements that are still needed      *Judicial Review and Social Welfare* Trevor Buck, 1998-08-13 The essays that comprise this collection focus on the impact and future developments of judicial review in a number of social welfare situations that include homelessness housing benefit immigration and social security to name but a

few **The Law and Elderly People** Aled Griffiths, Dr Gwyneth Roberts, Gwyneth Roberts, 2005-06-28 Although the number of elderly people in Britain is increasing steadily the law in relation to their particular needs is a relatively neglected field The Law and Elderly People was the first text to provide easily accessible information for those involved in advice giving and service provision in this rapidly developing field This second edition has been fully revised and completely updated to reflect the major legal and social changes which have recently occurred Concerned for the independence and autonomy of both young elderly and the old elderly the book covers employment and income accommodation and housing community and residential care health provision and delivery and family relationships thus providing an important guide to the most important legal issues The Law and Elderly People will be of practical help to all those concerned with the welfare of the elderly and to undergraduates and lecturers in social work law and gerontology **Dictionary of Social Welfare** Noel W Timms, Rita Timms, 2016-06-10 First published in 1982 this dictionary offers a practical aid to students of social work and of social policy in their conversation about social welfare It explains the meaning or range of meanings of common terms and explains their applications in welfare legislation policy and use by welfare practitioners It helpfully cross references terms with similar or related terms that might be considered alongside In addition most entries are concluded by references which introduce the reader to a more extended treatment of the term or an elaboration of its application in the language of social welfare Although first published in 1989 this book will be a valuable resource for students of social work social policy and social welfare **Criminal Litigation and Procedure** Jane Tyrer, 2000-10-17 This book covers the Law Society's Occupational Standards in Legal Practice for the NVQ in Criminal Litigation The reader is taken through the various stages associated with dealing with criminal clients Why information is needed from clients and its impact **An Introduction to Disability Studies** David Johnstone, 2012-07-26 Disability studies has become a legitimate area of academic study It is multi disciplinary in its critique of the oppressions that have historically dumped disabled people on the margins of society This fully revised and updated edition not only explains disability studies as an academic field of inquiry it also explores many of the current issues affecting the lives and circumstances of disabled people The book explores and analyzes quality of life factors in the lives of disabled people in relation to the professional development of undergraduates and examines the emergence of rights for disabled people in the local area the UK and abroad The author indicates the strengths and weaknesses of organizations of and for disabled people and provides examples of individual and institutional oppressions against disabled people and success stories exploring how these have been overcome in education and employment The book suggests how disabled and non disabled people can collaborate in the development of inclusive communities and neighborhoods The text is suitable for students taking courses in the areas of health social care and allied services at NVQ BTEC Degree and PGCE level The author encourages students to raise their own questions and develop their own forms of inquiry **Rights guide to non-means tested benefits** Richard Martin Poynter (Clive Child Poverty Action Group), 1992 **Disabled People and Employment**

distribution and redistribution What are the reasons for this apparent failure of the welfare state in alleviating poverty Why are some countries more effective than others in this respect and what can explain these variations in effectiveness Addressing one of the major puzzles in comparative welfare state research this volume examines why there is income poverty in highly developed welfare states Focusing on the basic safety net of the welfare state it offers a systematic analysis of the effectiveness of minimum income schemes in a comparative study across three highly developed welfare states Germany Sweden and the United Kingdom Blending insights from a combination of institutional information and quantitative data from income surveys the author evaluates the causal mechanisms for the persistence of income poverty in highly developed welfare states and derives conclusions for political reforms **Social Support and Motherhood** Oakley, Ann, 2019-09-11 Drawing on her long experience as an academic researcher and writer Ann Oakley develops a sociology of the research process itself telling the story of how a research project is undertaken and what happens during it to both researchers and those who are researched This remarkable book focuses on a topic of great importance in the provision of health services caring and social support Setting neglect of this topic in the wider context of an ongoing crisis in gendering knowledge Social support and motherhood is now reissued for a contemporary audience It has much resonance for social science researchers and others interested in the experiences of mothers and in the relations between social research academic knowledge and public policy Gender, Work and Social Control Jackie Gulland, 2019-07-17 This book uses previously unknown archive materials to explore the meaning of the term incapable of work over a hundred years 1911 present Nowadays people claiming disability benefits must undergo medical tests to assess whether or not they are capable of work Media reports and high profile campaigns highlight the problems with this system and question whether the process is fair These debates are not new and in this book Jackie Gulland looks at similar questions about how to assess people's capacity for work from the beginning of the welfare state in the early 20th century Amongst many subject areas she explores women's roles in the domestic sphere and how these were used to consider their capacity for work in the labour market The book concludes that incapacity benefit decision making is really about work what work is what it is not who should do it who should be compensated when work does not provide a sufficient income and who should be exempted from any requirement to look for it
