

The Rights of the Dying

a companion for life's final moments

David Kessler

"David Kessler was at my side as I watched my own father die. Thanks in large part to him, there was peace in the air. This book serves the needs of the person sitting by the bedside as much as it does the person who is lying in the bed. In it you will find gentleness and peace in the experience of death."—Marianne Williamson

Rights Of The Dying A Companion For Lifes Final Moments:

The Rights of the Dying David Kessler,1998-04 Lessons from the Dying Rodney Smith,2012-01-30 Are a person s perceptions and values altered when facing the end of life Are a person s perceptions and values altered when facing the end of life Do the dying see the world in a way that could help the rest of us learn how to live This book takes us into the lessons of the dying Through the words and circumstances of the terminally ill we become immersed in their wisdom and in our own mortality The dying speak to us in direct and personal ways pointing toward a wise and sane way to live In everyday language we can all understand Rodney Smith extends the conversation about death to people of all ages and states of health Through exercises and guided meditative reflections at the end of each chapter the lessons of the dying become a blueprint for our own growth The Last Adventure of Life Maria Dancing Heart,2008 A tool for healing and prayer this book aims to assist anyone who is grieving preparing to die caring for loved ones who are ill or interested in exploring different ways to view spirituality and death It offers an introduction to hospice and includes inspirational stories poetry scripture prayers and guided meditations **The Theology of Suffering and Death** Natalie Kertes Weaver,2013 This book offers a theological foundation for engaging with the realities of suffering and dying Designed particularly for practical theology students and trainee caregivers it introduces the spiritual and theological issues raised by suffering and dying The chapters consider how Christian theology deals with the problem of suffering and how the Bible treats these difficult issues post biblical interpretations of Jesus suffering and the Cross modern instances including ecology poverty discrimination and war comparative religious approaches and the depiction in popular culture Natalie Weaver relates theology to practical issues of caregiving and provides a toolbox for thinking about suffering and death in a creative and supportive way **Death and Dying** John F. Szabo,2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care

professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill

Journeys Into Palliative Care Christina Mason, 2002 The combined practice area of the contributors to this book include social work psychotherapy sociology counselling psychology creative writing nursing and medicine Several of the authors have multiple professions and have come to palliative care later in their careers Indeed the combined skill of this group is impressive Each chapter is unique and each story worthy in its own right The commonalities are remarkable also I recommend it to all palliative care professionals when feeling a little jaded about what we are doing and being swept along with the winds of changing technology and evidenced based practice and to other health care workers who feel an inclination to bring a little humanity to their care Omega Vol 51 1 77 86 2005 This book offers unique way of looking at caring for palliative parents by using the influence of the self It also offers an opportunity for reflection how our experiences can enrich the experience of patient s faced with the prospect of dying Professionals who enjoy reading stories will thoroughly enjoy this book International Journal of Palliative Nursing In a way it is surprising that palliative care has not produced more books like this collections in which those engaged in the daily work of caring for dying and bereaved people share something of their motivations for entering this particular world their experiences along the way and their reasons for staying in or quitting it Christina Mason was right to embark on this project She has edited a book that deserves to be widely read Palliative Medicine 2003 This is a delightful book Although its focus is on professionals working in specialist palliative care it would be useful for any practitioner wanting to learn more about reflective practice or their motivations for caring Journal of Community Nursing This rich collection of accounts explores the personal and professional experiences of palliative care workers Contributors from a variety of disciplines associated with care at the end of life among them social workers a nurse a doctor a counselling psychologist an academic researcher a psychotherapist and a creative writing therapist explain how and why they came to work in palliative care what they bring to the work and the ways in which it has enriched their own lives Including descriptive examples of their work with clients and families they discuss the spiritual needs of patients how to manage personal boundaries and power relations the use of narrative and story telling in care work and the impact of working with people who are very ill and grieving on every day life This thoughtful and positive book presents a variety of experience based perspectives on working in palliative care Emphasising the use of self and the importance of reflective practice in professional work this book will be of relevance to all professionals in medical and social care who want to gain a deeper understanding of their work and of the motivation underlying it

Right Thoughts at the Last Moment Jacqueline I. Stone, 2016-11-30 Buddhists across Asia have often aspired to die with a clear and focused mind as the historical Buddha himself is said to have done This book explores how the ideal of dying with right mindfulness was appropriated disseminated and transformed in premodern Japan focusing on the late tenth through early fourteenth centuries By concentrating one's thoughts on the Buddha in one's last moments it was said even an ignorant and sinful person could escape the cycle of deluded rebirth and achieve birth in a Buddha's pure land where liberation would be assured Conversely the slightest mental distraction at that final juncture could send even a devout practitioner tumbling down into the hells or other miserable rebirth realms The ideal of mindful death thus generated both hope and anxiety and created a demand for ritual specialists who could act as religious guides at the deathbed Buddhist death management in Japan has been studied chiefly from the standpoint of funerals and mortuary rites Right Thoughts at the Last Moment investigates a largely untold side of that story how early medieval Japanese prepared for death and how desire for ritual assistance in one's last hours contributed to Buddhist preeminence in death related matters It represents the first book length study in a Western language to examine how the Buddhist ideal of mindful death was appropriated in a specific historical context Practice for one's last hours occupied the intersections of multiple often disparate approaches that Buddhism offered for coping with death Because they crossed sectarian lines and eventually permeated all social levels deathbed practices afford insights into broader issues in medieval Japanese religion including intellectual developments devotional practices pollution concerns ritual performance and divisions of labor among religious professionals They also allow us to see beyond the categories of old versus new Buddhism or establishment Buddhism versus marginal heterodoxies which have characterized much scholarship to date Enlivened by cogent examples this study draws on a wealth of sources including ritual instructions hagiographies doctrinal writings didactic tales courtier diaries historical records letters and relevant art historical material to explore the interplay of doctrinal ideals and on the ground practice

Cultural Competence Compendium, 1999

Suffer Less in Death Vincent Dodd, 2021-06-07 Death is a clear cut objective moment but the process of dying and the choices we make for our own death and others is a wholly different subject Not becoming educated on your ability to influence your dying process is leaving that potentially long helpless period to fate Raw and informative this book explores the truth and asserts your right to knowledge

and your right to say No to medical procedures that ultimately only prolong suffering once imminent and inevitable death arrives What can be done to decrease unnecessary suffering before inevitable death This suffering is almost always influenced by a fear or lack of acceptance of death For the most part the healthcare field cannot stop this pain and suffering because of influences beyond its control unless you know how to protect yourself Ultimately it is up to the patient or their medical guardian to ensure a peaceful and dignified death It is obvious Vincent cares deeply about your awareness knowledge and choices as well as your control of your body and your own health care He cares to see your unnecessary fears of this often dark and taboo subject alleviated His professional and personal caring perspectives come from 21 years of bedside emergency and intensive care nursing in teaching hospitals followed by 14 more years of advocating for both the dying and the living to pilot their own health care He takes a look at an otherwise bitterly avoided subject that we all must face and turns it into a highly informative easy and at times even a funny read There is a sweet icing on this normally hard to stomach cake known as dying and death he also has some great input on how not only to stay alive but to feel more alive
